POETRY.

WHY LOVE WE LIFE.

Why love we life with anxious thought,
Why hold this earth so dear,
Why breathe we prayers so earnest oft,
For days still longer here?

Oh, is not life a union formed,
'Tween body, soul and earth,
And union's principle is love,
In progress as in birth?

'Tis even right and wise and good
To hold this union dear,
And wrong to wish the temple razed
That holds the soul here.

And e'en the world was made for man,
And God pronounced it good;
It yields us blessings by his will
And gives us clothes and food.

In beauty, too, 'tis worth our love,
And many are the joys
We may extract, if wise we live,
For life's not all alloys.

There's love and good and happiness
Mixed up in man's earth-lot,
And if for these he clings to it—
'Tis nature—blame it not.

And may not earth, renewed and pure,
Yet be the Heaven we seek,
Where man with perfect nature blessed,
Eternal truth shall speak?

Where Heaven its throne of love shall set,
And saints be gathered round
To sing the praise of him who died,
And kings and priests be crowned.

Then surely earth has much to love—
But more when wrong shall cease;
And all mankind as brothers joined,
Enjoy eternal peace.

TAYLORISM DENOUNCED AND RENOUNCED BY AN ORIGINAL TAYLOR MAN.

We copy from the Marion (Grant county) Western Union, Mr. B F. WALLACE's communication, giving his reasons for abandoning Taylorism and becoming a Democrat. Mr. Wallace, as is well known to most of our readers, was one of the earliest and most ardent supporters of General Taylor for the Presidency. He started the first Taylor paper in the state—The Rough & Ready Banner—at a time when most of those who now claim to be the peculiar supporters of his administration, and as such entitled to all the spoils of victory, were denouncing General Taylor's nomination as one not fit to be made, and asserting that a regard for whig principles absolutely forbid any [illegible] Taylor, and having [illegible] volved himself in embarrassments by the undertaking, he applied, after General Taylor commenced treading in the footsteps of the earlier Presidents, for an appointment. But, alas! he soon found that the spoils were not for those who had borne the heat and burden of the day; those who had stood in the fore front of the battle, were now compelled to give place to spoil hunters, who had only joined the ranks when victory seemed perched on their banner. Mr. Wallace's case, though a hard one, is by no means singular—most of the original Taylor men have been similarly slighted, and most of those who are now fattening on the loaves and fishes of the government, are those who were originally opposed to Gen. Taylor—the regular old Hunkers of whiggery.

From the Marion Western Union.

To the Voters of the Tenth Congressional District.

In the Card withdrawing my name as a candidate for Congress, (which was published in the 'Western Union' some weeks before the election,) I promised to assign the reasons for my withdrawal, and, also, the reasons for my present political position. This duty, however, I had intended to delay until the dust and smoke of the August election, and the excitement consequent upon victory or defeat, had entirely subsided,—at which time I was persuaded the reasons given in this communication would have met with a more rational criticism, and the power of its truths *more generally acknowledged.* In complying with my pledge at this time, I frankly admit that I have yielded my own preference at the instance of the editor of the 'Western Union' as will be seen in his last week's paper, for whose opinions I have much respect. I have also been reminded of my pledge by many personal friends, who I am always ready to serve when in the right. In discharging this duty, I wish it understood that I have no personal interest to promote, no private griefs or disappointments to avenge. Whatever opinions I may express, or whatever principles I may favor, is the result of candid investigation and the experience of years; I therefore hope to have the privilege of enjoying them without incurring the displeasure of those who entertain different views.

First, then, I withdrew my name as a candidate for Congress because I thought that I could not be *elected;* this far, at least, I am sure of having credit for sincerity. Secondly, the party to which I claim to belong had selected their candidate by convention—one, too, whose ability and worth I could freely endorse, and whose principles I believe to be identical with my own; therefore, there could be no propriety in my resisting the will of my political friends.

I am not surprised that the few leather-spectacled gentlemen, whose ideas are stereotyped, who never had an original thought, and who know barely enough to follow the direction of their leading strings, should, parrot-like, utter the teachings of their prompters, and denounce those who have the moral honesty and integrity to follow the political course pointed out by reason, experience, and practical knowledge; nor is it strange that such near-sighted gentlemen are unable to see the consistency of supporting General Taylor for the Presidency and claiming to be a democrat and free soiler; but to every *reasonable* mind I have no doubt of making such course proper and consistent under the facts as they existed at the time. General Taylor was supported for the Presidency by the voters of the free States from the fact that he was *pledged* to approve the action of Congress upon all questions of "domestic policy." The Wilmot Proviso was urged by his friends as the most important question of "domestic policy" that then as now divided the American people. It was also believed that he cherished enough of the soldier's *pride* of *honor* to resist all the influences that might *unadvisedly* be gathered around him; as also every attempt to mould him into the pliant political tool. It was also believed that the Wilmot Proviso, as an *unconditional* principle in any law organizing any of the Territories of the United States, would more readily be acquiesced in by Southerners if sanctioned by a Southern President, for the reason that he could not be chargeable with favoring the sectional jealousies and differing interest, which, to some extent, unfortunately exist. Nor could he be censured for yielding to a simultaneous and general expression of the advocates of true liberty to keep from the pages of our Statute books the authority for the further extension of a national blight, which denies to Americans the boast of even Englishmen, who say to the oppressed of all countries, "come, you touch *our* country and your *shackles* fall."

I admit, however, that there is some reason to distrust the action of the President upon the "Wilmot Proviso," notwithstanding his strongly implied pledge not only to approve it, as also his expressed opposition to the exercise of executive influence upon members of Congress, previous to or during the pendency of any measure. For no sooner did he reach Washington city, prior to his inauguration, than he sought to prevail upon his friends to sustain an amendment then pending, to the bill organizing the Territory of California, which *amendment* wholly compromitted the "Wilmot Proviso." The only excuse attempted by his friends for this violation of good faith is, that he was not then President, and was acting in the capacity of a private citizen. But every reflecting mind will readily see that it was the most auspicious time that he could have chosen for the accomplishment of the object. The favors of the new Administration were yet to be dispensed, and hungry expectants, both in and out of Congress, were in waiting, impatient for the honor of being the first to do his bidding. The appliances used are not positively known, but it is suspected that the *promise* of place induced others, as well as some of whom Indiana was once proud and willing to honor, to prostitute their integrity and duty to their constituents. There is reason then to distrust; and there is cause to fear that the political friends of the new Administration, if they have the power and do pass the Proviso, that it will be ingeniously clogged with some evidently unconstitutional proposition that will justify the President in vetoing it. Hence, it is the part of *wisdom to guard this contingency* by electing members to Congress who have no interest in shielding the President from responsibility. I still think, however, that if General Taylor is driven to the alternative, before the corruptions of the Capitol and the arts and machinations of restless aspirants to the succession throw their toils around him, he will redeem, though reluctantly, his pledge to the American people. If he does not, the frowns and execrations of an indignant public will be more fearful in the onset, than was that host who planted the black flag on the side of the mountain that overlooked the bloody field of [illegible] South, whose peculiar interest would be protected by such a disregard of his pledge and sacrifice of his honor, notwithstanding they might wink at the treachery, would "pity the treason" and "despise the traitor." General Cass was clearly opposed upon constitutional grounds to any legislation by Congress upon the subject of slavery in the Territories, and the election of Martin Van Buren was entirely hopeless. Hence the propriety and consistency of free soilers voting for General Taylor who was committed to their policy, if sustained by Congress.

General Taylor said that he would never consent to be the President of a party; and now can any one be found so reckless of truth as to deny that he is the most proscriptive party President that we have ever had!—Will it be satisfactory to the people to be told that General Taylor does not desire to exercise the *one man* power, and to avoid it, has suffered the dignity of his station and his public obligations and duties to be merged in the profligacy and corruptions of the Cabinet?—Will an American's pride of country be exalted, when he knows that the individual selected to represent and reflect her honor and her principles, has so completely shrunk to the dimensions and character of the political puppet, that when interrogated in reference to questions of public interest, in the line of his legitimate official duty, dare but raise his finger to his lip in token of his silence and in obedience to his advisers?

When I speak of the profligacy and corruption of the Cabinet, I speak understandingly, for I happened to be one of those who confided in the sincerity of General Taylor's avowal, to be guided in the Administration of the Government by the simplicity and open republican "examples" of the "earlier Presidents," and so confiding, procured recommendations which fully endorsed my merit and capacity for some of the offices that were to be filled. They should at least have entitled me to some consideration. I accordingly visited Washington and presented myself at the office of Mr. Secretary Ewing, and enquired of the waiting man at the door for Mr. Ewing, and desired to see him; *I was then asked if I was a member of Congress,* which was answered in the negative, *and was promptly told that the Secretary could not be seen that day.* I made the same effort for several days in succession, and was finally very politely informed, *that I could not see the Secretary unless I was accompanied by a member of Congress. I then began to see for the first time what a Whig Administration meant by bringing the Government back to its "original simplicity and purity."* I immediately left and went in search of a member of Congress; I found the Hon. Richard W. Thompson of this State, who willingly consented to accompany me. The door was immediately opened when Mr. Thompson was announced, who entered, and in a few minutes returned and conducted me in and gave me a regular introduction according to court etiquette. I felt and acted, no doubt, as awkwardly as Mr. Ewing would have done fresh from the Salt Works. I told my business and presented my papers. The Secretary, however, declined examining them, as he said, in consequence of press of business, but looked at me with a searching eye, and seemed to be in expectation of some sinister proposition or some effort at Diplomacy—neither of which was offered, and the Secretary soon became impatient of my presence. I was the only applicant in the room, for more than one at a time was not admitted. Can any one account for Mr. Ewing's extreme *secrecy* in the discharge of his public duties, unless the offices are being let to bidders, or the patronage of the Department wielded to secure the succession? Why does he prefer yielding to the wishes of a member of Congress *privately* given, instead of an open expression of opinion from a large and respectable portion of the citizens of a State? Corruption knows why.—It was my good fortune not to understand the system of *financiering* for office under this administration, and I am proud that it was so, for I do not desire to hold office by a tenure that requires mercenary contribution.

Gen. Taylor positively said that he had 'no friends to reward, no enemies to punish.' The first he has strictly observed, and the latter relentlessly disregarded. This falsehood is indelibly written upon the fairest spot of his former fame. Where are the Democratic incumbents who have been brought to the block of the political executioners, who have not been beheaded? they cannot be found.—Where is the original friend of Gen. Taylor who has received an appointment at his hands? he is not known. Who, then, are the recipients of his especial favor?—that question is easily answered, because it is known to all—they are the drones of the Whig hive—who have nearly in every instance been repudiated by the people, by their own party friends, as stumbling blocks in the way of political success. Such men as have lived upon the emoluments of office, and they think they cannot live without it, have been kindly remembered by Gen. Taylor—such men as were whipped into his support and only held there by *constant vigilence* now have his entire confidence, from the fact I suppose that they manifested some discrimination and prudence, in *giving him their support, doubtingly.*

If Gen. Taylor has in truth forgotten his extreme veneration for the "examples of the earlier Presidents" and is determined upon making a portion of the offices under his patronage public charities—why has he no heart for those who stood with him, shoulder to shoulder in their country's struggles, and who less fortunate than himself have returned (maimed in body and shattered in constitution, wholly disabled from earning a support by day labor,) as they supposed to the bosom of a grateful country—such men have been ruthlessly displaced from offices that afforded but a meagre pittance for their wants, to make room for others whose fortunes, connections, and political influence were thought necessary and profitable in the service of the *grateful old Soldier* in his new field of operation. Offices have been *bestowed* upon others, at the urgent solicitations of *near relatives,* who, years ago, were known to be destitute of the physical energy, efficiency and business qualifications necessary to discharge the duties of a villiage *postmaster* or *Justice of the Peace* by reason of the infirmities of age. Poor souls they are now made to stand one foot on the grave, and the other in a responsible public office, unavoidably dividing the time necessary for preparation for the first, and indispensable to a prompt discharge of the obligations of the second. Good and competent men have been removed to make place for *such successors.* Not that they were better or half as well qualified, nor because they needed *such charity,* but to gratify the zeal of others in their inaccountable abandonment of better friends. What a beautiful illustration of the "*examples of the earlier Presidents*"

Having heretofore acted sometimes with the Whig party, and sometimes with the Democratic party, my true position has been questioned, but that I have always acted in my humble sphere wish an eye to the best inter[illegible] judge; but [illegible] The whig [illegible] had a theory, a platform which [illegible] plausible, but well calculated to mislead the unsuspecting; yet upon investigation and practical illustration they were found to be unwise and were condemned by the American people. It consequently became necessary to new model, new dress and new furnish the platform, which process has been repeated so frequently and so differently, that so great is the confusion of principles that even the Apostles do not know their creed. It is all finally frittered away to the miserable duplicity and falsehoods represented by Truman Smith—who is regarded as the executor of the party. Hence I could not be a whig.

The *Democratic party, on the other hand, stand upon the constitution, resolved to* preserve it inviolate, and are openly pledged to practice upon such a line of policy as has heretofore advanced the prosperity of the whole country without interfering with the constitutional rights of any. They are now the friends of the Wilmot Proviso and in favor of the abolition of the Slave Trade in the District of Columbia, and these are the paramount questions that the citizens of the north wish to see settled with as little delay as possible, and to the Democratic party is now entrusted their speedy and equitable adjustment. In reference to all other public measures, there is but little if any difference of opinion. Hence the necessity of sustaining the party that have boldly adopted the principles that we approve, and hence the reason why I am a democrat.

B. F. WALLACE.

The Special Elections in Rhode Island.—We are told by gentlemen from Rhode Island that two causes mainly contributed to the election of Nathan F. Dixon, whig, in the Western Congressional District, over the late incumbent, Mr. Thurston, dem., viz: First, the coalition formed by the latter with the *free soilers,* (who only poll about 160 votes in the district,) and secondly, the *great personal popularity* of Mr. Dixon. The coalition disgusted many democrats, and induced them to stay away from the polls, or vote for the whig candidate. Mr. Dixon is a son of the late U. S. Senator, and not more in favor of a high tariff than Mr. Thurston. Both are what is called protectionists, though not of the ultra sort. In all the towns, except Jamestown and N. Shoreham, the votes stood: Dixon, 2,708; Thurston, 2,105; Dixon's majority, 603. At the trial in April last, Shearman, whig, received 1,959 votes, Thurston 2,017, Hall (free soil) 161, scattering 25.—*Jour. of Commerce.*

The Rhode Island papers also represent Mr. D. as standing in an *independent* position, pledged in no way, to any particular action. It will be quite refreshing to see one independent man in Congress. When will there be more, for they are greatly needed!

OLD WHITEY.—The New Orleans Delta has knocked away all the romance with which the public mind has invested the "old war-horse of the General," as he is familiarly termed. So far from this, it seems that Taylor bought him of a "busted up" circus company, just before he marched to Corpus Christi.—Soon afterwards, the "Second Washington," remembering that the first Washington always rode his famous white charger at reviews, conceived the brilliant design of following in his footsteps—and accordingly old circus was duly caparisoned, and the General rode at the head of the column. But alas, he had not forgotten his old occupation; it mattered little to him whether he carried Cæsar at a review, or a clown in the ring,—and no sooner had the music struck up, than old whitey struck out a circle, which the rider found himself unable to restrain! Around they went over "the tan" one tugging at the bit, and the other at the reins—until at last, to the infinite amusement of his fellow-officers, the humble imitator of "the first and best," was landed on the turf. After this, old whitey was discarded, and made to associate with the pace mules at the tail of the train, until the necessities of his master brought him once more into service, at the battle of Buena Vista. We are sorry to learn these facts, as they take away one of the most interesting features of the most interesting administrations that ever flourished in the "heroic age."

SOLON ROBINSON.

The immortal Solon Robinson, of Lake Co. who for a year past has been travelling in the south, fattening at the tables of the cotton planters and tobacco growers, in a recent letter to the National Intelligencer thus announces his conversion to the interests of slavery:

"During my journey, I have had great opportunities to see negro slavery as it is, and am free to say, that all the objections I ever had to the institution must give way to the strong arguments of light and reason; that, at least to the negro, it brings a *thousand* blessings to one curse. I could tell you facts about the situation of the three hundred slaves upon the plantation of Col. Wade Hampton, where I now write this, that would go to show the condition of these people to be almost inconceivably better than that of thousands of white freemen throughout all this region—the same class of people from whence Col. Gregg has drawn his factory operatives, because they are found to be *cheaper* than blacks; and, for an obvious reason, there are no children, sick, or infirm, to be supported. They are *free,* which also means free to starve, if unable to work; while the slave is always provided for at his master's expense."

Very well done, Solon; you are really making fine progress when you step over from the side of freedom and humanity to the side of slavery and degradation. But you are in the highway, Solon, to place and preferment under this administration, and your somerset on the slavery question will go very far in relieving Truman Smith from any "embarrassment" he might feel in recommending you as an Indianian. Hang on to the skirts of the negro drivers, Solon, and you will do well enough. The administration needs the services of just such lick-spittles, and, unless they possess a tolerable degree of discrimination into your real character, will be sure to reward you. Remember the example of Cale Smith and Dick Thompson, and don't forget to bring us a lock of hair from the tail of Old Whitey when you get your commission.—*Goshen Democrat*

Something New.—A consignment of one hundred and sixty bbls. and fifty half barrels Mackerel has been received by Mr. A. S. Kellogg, Esq., of this city from Quebec. They are part of a large cargo of different articles which were shipped direct from Montreal to Cleveland, in a Canadian vessel; and the fish shipped from Cleveland here. In return Mr. Kellogg sends back Kiln dried corn meal and other produce. We are informed that these Mackerel can be afforded about the same rates as in the New York market.

We learn that this consignment is made as an experiment to try our market, and test its advantages and that it is soon to be followed by other articles for the same purpose. If the experiment should prove successful (of which we have no doubt) it will be the opening of a [illegible] trade between Quebec and [illegible] for which [illegible] corn, meal, lumber and a variety of other products, which would result to the material benefit of both parties.

Some time since we mentioned that an application had been made to the Canadian authorities for the opening of the American vessels. This is a matter in which the west feel a deep interest. Since that time it has been decided that the Candian Government has not the control of the matter, and the whole subject has been referred to the Home Government. If this desirable object can be brought about, a great and important trade will immediately spring up between the two countries. By opening the St. Lawrence to American vessels, the Mississippi will be placed in almost direct water communication with the Atlantic.—*Detroit Free Press.*

REDUCTION OF TOLLS.

Our State, as well as the state of Indiana, in our opinion greatly mistake their true interests in keeping the tolls on the Wabash and Miami Canals at the present extreme mark. *No more* productive country, nor one of greater area, in the world, is traversed by canals, than the Wabash and Miami Valleys. Scarcely twenty years have passed since the first white settlers commenced the work of subduing the soil along these two rivers, but now their united products, which find a market at Toledo on the East, and Cincinnati and New Orleans on the South, are worth in value from fifteen to seventeen millions annually. Of this large surplus, which consists of some one hundred and twenty different articles, some ten *millions* in value finds an outlet to the Eastern makert at this point. The question may be reasonably asked, why does it not all take this route? We answer, that one of the greatest obstacles in the way of this is the heavy toll of the canals. Persons living at a distance from the Canal, in Indiana, who have wheat, or pork, or corn for market, with no other means of getting it to a place of shipment, except by the imperfect roads of the country, will naturally transport their products to the place of shipment, at a season of good road and high prices, and when the river navigation affords an opportunity for Southern compeition. Now we are bold to say that no competition from the Southern market would divert the trade in Northern produce or provision, along these valleys, from *this* point, if the expenses incident to transportation—and tolls especially—were graduated to a scale alike beneficial to the producer and the State. Beyond a compensatory amount, heavy tolls on public thoroughfares are as oppressive monopolies as any in the world. They are felt by the entire community; and while this is true of them in their general operation they are not less injurious as a matter of public policy. It might not be this year, nor next, after a reduction in tolls, that the revenue derivable from them would be ample to defray current expenses; but as a work of time, but a *few years* would elapse before it would be a richer source of revenue than it is under the present arrangement.—*Toledo Commercial Republican.*

A Large Frigate.—There is a large steam frigate building at Philadelphia, to be called the Susquehannah. It is expected that she will be ready to be launched in six or eight months. She will be 30 feet longer than the great ship of the line Pennsylvania; but her breadth of beam is much less, and her tonnage is but 3,500. She will carry but eight guns of heavy calibre—one of them, will be placed upon her bow, will throw hollow shot weighing 268 pounds. Her machinery will cost $300,000—the four boilers alone $30,000 each—and the whole vessel, when completed, about $600,000. Her crew will consist of about 300 men.

Heavy Damages and Important Verdict.—Rev. Alexander Campbell, President of Bethany (Va.) College, has received $10,000 damages of Rev. James Robinson, of Scotland.—Mr. Campbell, it will be remembered while on a tour through Scotland, in 1847, was arrested and imprisoned in Edinburgh, through the agency of the Rev. James Robinson, for having, while discoursing on the subject of slavery, uttered sentiments obnoxious to that gentleman. Some of his friends instituted a suit against Mr. R. This suit has recently terminated, and the result is a decree of the Lords of Council and Session in favor of Mr. Campbell for two thousand pounds sterling.

An extraordinary Case of Hydrophobia.—A very singular case of hydrophobia has occured in Southwark, the particulars of which, from the attending physician, Dr. T. S. Reid, are as follows: The person affected was a Mr. Wm. Willets, a respectable citizen of the district. Mr. Willets is a man about 35 years of age, of strong constitution and active habits. On Tuesday evening, he returned from his labor in his usual good health. On Wednesday morning he arose with a stiffness in the side of his neck and numbness of the arm, which he attributed to exposure to a change of temperature during the night. He applied to Dr. Reid, who, finding no other apparent cause of disease, gave him a remedy, which, however, did remove the disagreeable sensation. He grew rapidly worse, soon began to manifest all the usual symptoms of hydrophobia. A current of air passing over him when his eyes were closed would cause violent paroxysms. A drink of water would produce the same effect, though he complained greatly of thirst and evinced a strong desire to assist the efforts of the doctor to get him to drink.—He also exhibited the characteristic of spitting violently. Opiates were administered to him, and chloroform liberally, but they produced scarcely any effect, and on Friday morning the unfortunate man died. What is peculiar about the case is, that Mr. Willets had never been bitten by a rabid animal within his knowledge, and had no idea that his disease was hydrophobia. There was no pain attending his sickness, which in hydrophobia usually affects the wounded part and extends upwards to the seat of sensation. There was no wound and no injury perceptible, though Mr. Neil says the man was bitten a year ago by a dog that he was playing with, which subsequently died. All the symptoms were characteristic of the hydrophobia, and it is supposed to be a spontaneous case of that dreadful malady.—Both Dr. Reid and Dr. Condie, we understand, incline to that belief. The case is certainly extraordinary, and will interest the medical profession. We have no doubt it will be duly reported.—*Philadelphia Ledger.*

A Wife in Trouble.—"Pray tell me, my dear, what is the cause of those tears!"

"Oh, such a disgrace!"

"What—what is it my dear? Do not keep me in suspense."

"Why, I have opened one of your letters, supposing it addressed to myself. Certainly it looked more like Mrs. than Mr."

"Is that all!" What harm can there be in a wife's opening her husband's letters!"

"No harm in the thing itself. But the contents! Such disgrace!"

"What! has any one dared to write me a letter unfit to be read by my wife?"

"Oh, no, it is couched in the most chaste and gentlemanly language. But the contents! the contents!"

Here the wife buried her face in her handkerchief and commenced sobbing aloud, while her husband eagerly caught up the letter and commenced reading the epistle that had been the means of nearly breaking his wife's heart. *It was a bill from the printer for nine years' subscription!—Sandy Hill Herald.*

A Collapsed Cholera Patient!—Some weeks since, a Sheriff from one of the Reserve counties—*probably* from Cuyahoga county—by the name of Root, started for Columbus with three men sentenced to the Penitentiary. On his way down, one of them was taken with *severe* symptoms of cholera. (?) On his arrival at a town in Lorain county, called Huntington, the said cholera patient became very ill; so much that the Sheriff, upon *medical advice,* con-[illegible] became [illegible] that he soon fell [illegible] *sleep,* with his eyes tight open. The nurse, thinking his *case* out of danger, also fell asleep. The *patient,* some time during the night, got able to be about, and concluded he was able to go out without assistance; and taking the sheets off the bed, made a kind of rope, which answered his purpose, and quietly let himself down to the ground and collapsed. Since that time he has not been heard from, although some search has been made. This is the first case of *cholera* that has been known to *go off* so easy.—We have not been informed of the name of the attending physician; but as he is a *man* of undoubted experience in cholera, we would advise him to settle in some more densely settled neighborhood. How would it do to make him physician to the Penitentiary! He would be great relief to the convicts.—*Ohio Statesman.*

Salt River and its Tributaries.—A Locofoco schoolmaster wishing to quiz a Whig urchin in the Geography class, inquired—"Master Jenkins, where does Salt Salt River take its *rise,* and what are its principal tributaries?"

"Salt River," gravely replied Master Jenkins, "rises wherever a political paty happens to fall, and its principal tributaries, at present are the two *branches* of Locofocoism in New York."

The schoolmaster fainted.

Pleasant Place to Live in.—Dr. Sayre, official physician of the 12th ward, N. Y., states that in the first election district of that ward, extending from Fortieth street to Ninetieth-st. and the Sixth avenue to the North River are over 20,000 *hogs,* 690 *voters* and 6,000 *inhabitants.* Since the 12th of June to this date there have been 470 cases and 164 deaths of cholera—in many cases taking off all in a house, and in some others, many of the same block, seeming to rage in *spots.* In this immediate vicinity are two tripe factories, 9 bone boiling establishments, 1 starch factory, 2 glue factories, 3 bone charcoal furnaces, 1 stable of 270 cows, without any drainage, and 1 establishment for the reception of dead animals, of which in the hot season there are many every day.

MARRIED.—Near Waterford, Mr. John Milton Latta to Miss Lydia Haney.

Lydia's heart went pit-a-pat-a
When she answered Milton Latta,
"Fair or stormy, dry or rainy,
I'll be your own Lydia Haney!"
And she kept her word—she did that!

—*Goshen Democrat.*

'Did I not give you a flogging the other day?' said a schoolmaster to a trembling urchin. 'Yes sir,' said the boy. 'Well, what does the Scripture say on the subject?' 'I don't know, sir,' said the other, 'except it is in that passage which says 'it is more blessed to give than to receive.''

Sensible Advice.—"If you ever marry," said a Roman Counsul to his son, "let it be to a woman who has judgement enough to superintend the getting of a meal of victuals; taste enough to dress herself; pride enough to wash her face before breakfast; and sense enough to hold her tongue when she has nothing to say."

Kentucky.—The Frankfort Commonwealth gives returns, official and reported, by which it appears that the whigs have a majority of about thirty on joint ballot in the Legislature. If the Convention, even in Casey county, which was reported a tie, has returned a whig as now claimed, the democrats will still have a majority of four, that body being composed of fifty-two Democrats and forty-eight Whigs.

Fight.—We are informed that Mr. D. Law, of Northport, in this county, and Dr. James McCollum got into a fight, in which the latter received several stabs with a pocket knife.—Mr. Law underwent an examination and was acquitted.—*Noble Co. Star.*

NOTICE.

The members of Fire Company PROTECTION NO. 1, will meet this afternoon at 4 o'clock, at the Court House.

By order of the Company.

H. W. JONES, Sec'y.

Sept. 15, 1849.

Coming out from the Foul Party.

☞ Read Mr. B. F. WALLACE's renunciation of the errors of whiggery, on our first page. It will amply repay perusal.

NEW GOODS.—By our advertising columns it will be seen that Aylsworth & Borden have received an immense stock of new Goods, which they intend selling very low. Their stock of carpets, especially, beats any thing of the sort ever seen here—either for quantity, quality, or cheapness.

MOSES DRAKE jr. is also on hand with new goods. His well known taste in buying, and acknowledged liberality in selling, renders it unnecessary for us to do more than merely announce the fact that he has received new goods. Buyers will be sure to call at No. 3.

Abatement of the Cholera.—We are encouraged to hope that the cholera has spent its force and is about to leave us. For the last four days we have only heard of one new case, and that is now convalescent. We give a list of all the interments since our last, by which it will be seen that there has been only six deaths by cholera this week, and none since Tuesday last.

At the Catholic burial ground Mrs. Lamke was buried on Sunday and her son on Monday. No other interments.

At the City Burial Ground.

12th.—Watson Morrow.
13th.—*Child of John Nill.

*Mr. Nill's child did not die of cholera.

Disastrous News from Hungary.—We give copious extracts of the melancholy news from Hungary, by which it will be seen that this heroic people have been overpowered in their patriotic attempts to establish their independence.

The accounts are contradictory, and we still entertain some hope that matters may not be quite so bad as they appear. The accounts are all derived from Austrian and Russian sources, and may be too highly colored. It is possible, that instead of being entirely overpowered, the Hungarians may have made some terms with their opponents securing their independence. We do sincerely hope this may be the case, as this gallant people, after their heroic sacrifices in the cause of freed[illegible] If however [illegible] pelled to an unconditional surrender we should suspect bribery and treachery on the part of some of the leaders. Russian gold may have proved more irresistible than its steel and lead: & the Emperor of Russia well knows the potency of the valuable metal in accomplishing his ends. It is stated that proof can be produced that Georgey has been tampered with and bribed by Russian emissaries; and that an attempt was made to bribe Dembriskie, but that the latter indignantly spurned the bribe, and refused to betray his country and the sacred cause in which he was engaged.

Auditor of State.—An Auditor of State and Treasurer will have to be elected at the coming session of our Legislature. We notice in the State Sentinel that the name of Dr. E. W. H. ELLIS, editor of the Goshen Democrat, is announced as a candidate for Auditor of State, and that paper speaks quite favorably of the claims of Dr. Ellis to the nomination.

We hope the democrats in the Legislature may do the fair thing towards the north this time, and elect Dr. Ellis. Among all the aspirants who may present their claims, there will be *no one*, we venture to assert, better qualified, and perhaps few as well, to perform the duties of the station than our friend the Doctor; and assuredly there can be none who have stronger claims on the support of the party than he. For years he has done his duty faithfully, earnestly, and with ability, in support of the principles of the party, and as editor of the Goshen Democrat has wielded a powerful influence in the political regeneration of the state. That his labors have not been without effect is manifested by the vast increase in the democratic vote of the counties in which his paper circulates.

The north has now become the strongest and most reliably democratic portion of the state; but yet, strange as it may appear, its citizens have generally been overlooked in the selection of candidates for office; and even when they have been nominated in Legislative caucus, they have been basely forsaken by professing democratic members from the south. It is time this species of trickery and bargaining should cease, and we do hope that Dr. Ellis may be treated with fairness and honesty, and if he be selected by the caucus as the democratic candidate, that *every democrat* in the Legislature may feel in honor bound to vote for him. If the caucus, which we suppose will be held to decide which of the aspirants shall be selected as the democratic candidate, be conducted fairly, we know enough of Dr. Ellis to justify us in promising for him that he will cheerfully acquiesce in its decision, and if he should not be the nominee, will expect his friends to give the same support to the one selected that they would to him. But if, on the contrary, there should be any of that trickery and insincerity manifested by members from other parts of the state which have sometimes exhibited themselves on similar occasions, it may then be a question whether the democrats from the north ought longer to submit to the proscription we have so long endured. Much as we deprecate local and sectional differences and dissentions in our ranks, we are not prepared to say that we ought longer to succomb to this unfair course towards the north; if it should be again attempted we would prefer to see all the members from that portion of the state vote against the nominee, instead of tacitly aiding the efforts of those who have hitherto oppressed us, by supporting their candidate.

We trust however no such difficulty will arise. The north is fairly entitled this time to one of the state offices. Dr. Ellis is the candidate of the north, and as such we hope he may be elected.

The Lafayette Journal (whig) speaks thus favorably of Dr. Ellis' qualifications for the office in question:

"Dr. Ellis, Editor of the Goshen Democrat, is announced as a candidate for State Auditor. If Douglas Maguire is to be superceded by a Democrat, we hope the Doctor will be the man, for he has battled for his party long and faithfully; and his experience as County Auditor ever since the office was established in this State, has given abundant proof of his honesty and efficiency as a public officer."

General Taylor has arrived in Washington City. On the 10th inst he was reported to be still in very feeble health. His complaint is stated to be the bilious diarrhœa.

Lafayette Daily Journal.—Mr. BAUSMAN, the "senior" of this sprightly sheet, has, we regret to notice, retired from the tripod, leaving the Journal in the hands of his partner Mr. A. WEST, by whom it will hereafter be conducted. We wish Brother Bausman abundant happiness in his retirement from the perplexing duties of the editorial chair; and at the same time hope our Brother West may continue to receive the liberal support his paper justly deserves.

The Fort Wayne Times.—Mr. W. H. Withers has retired from this establishment, and is succeeded by Mr. G. W. Wood, the former editor and proprietor. Mr. T. N. Hood still retains an interest in the establishment and it will hereafter be conducted under the firm of G. W. Wood & Co.

We welcome brother Wood back to the tripod, and wish the new firm every success.

Gen. Taylor's Northern Face.—Gen. Taylor, during his recent tour through Pennsylvania, was a very strenuous peace man, thinking no doubt that such a doctrine would be quite acceptable to the drab colored descendants of Penn. He also, as we learn by the papers, expressed himself utterly hostile to the introduction of slavery into the new territories, knowing of course that such was the *general* feeling in that State. He is trying to become all things to all men. In Pennsylvania he is a peace man and free soiler; and in Massachusetts, if he had continued his tour that far, he would doubtless have become a rampant abolitionist, and taken the Mexican side of the war question.

The Pittsburgh Gazette gives the following account of the manner in which the General defined his position on the slavery question in Pittsburgh:

Taylor and Free Soil.—During the [illegible] substance as follows:—Although a slave holder himself, he regarded slavery as a great moral and political evil, and would be infinitely rejoiced if it were every where utterly extinguished; he did not believe that Congress possessed the constitutional right to interfere with slavery in the States wherein it now existed, but it had the right and should exercise it, to prevent its extension into territory now free.—Since he had left Washington he had received a letter informing him that notice had been given to the government that the people of California were about to form a State Constitution, containing the slavery prohibition, and would apply for admission into the Union at an early day—he expressed his gratification at this, and declared that it should receive his cordial sanction, as he was utterly hostile to the introduction of slavery into the new territories."

We place this on record that our readers may have an opportunity of contrasting the General's Northern Face with his Southern one, when he takes a trip into the Slave holding states.

NOTHERN INDIANA CONFERENCE.

Appointments.—We copy from the Logansport Pharos the appointment of preachers for this district. Rev. G. M. Boyd, formerly of this place, is appointed to the Terre Haute Asbury Chapel; W. C. President of Fort Wayne Female College. —C. Nutt.
Agent.—A. Beach.

AN AVOWAL.—The *Blue Hen's Chicken* (Wilmington, Delaware) declares itself the first paper in Delaware to raise the Taylor flag; and that Deleware was carried for Taylor by its influence; and denounces the Party and the President for having violated their pledges of no proscription; and in a subsequent paragraph it makes the following avowal of its present position:

The Free Soil Party.—We may as well now declare to the people of Delaware, that we belong to the *Free Soil Party.* We go for *free soil for free men*—we go for the *Wilmot Proviso*—we go for the *non extension of Slavery*—we go for admitting no more slave States into the Union—we go for Liberty and against Slavery—we go for abolishing the slave trade and slavery in the District of Columbia. If necessary, we are willing that the U. S. shall allow a fair price for the slaves now owned therein. We go for abolishing slavery in Delaware, upon reasonable terms, and at the earliest practicable period; at the same time we are against the United States meddling with the dreadful institution in the States. We wish each State to get rid of the evil the best it can; and we verily believe that no country with slavery can long maintain true Republican institutions. The history of our free and slave States clearly demonstrate that slavery retards the march of population and improvement; and it is generally admitted that Christianity, morality, and virtue, become sickly and deteriorated in a slave soil; nevertheless, we go for justice to the slaveholder as well as others. They are all (except the slave dealer and slave breeder for the market, and the slave stealer) more to be pitied than condemned—*they know not what they do*, in upholding such a pestilential institution.

STEAM CANAL BOAT.—The Cincinnati Despatch says:

"This novel craft which is fitting up in the basin between Sycamore and Broadway, attracts much attention and considerable anxiety is manifested as to the success of the project of navigating our canals by steam."

* * * * * * * * * *

The boat differs in external appearance only in the width being greater than that of the neat model of the light tow packets now in use, and in the increased strength of the timbers of this staunch built affair. Her burden is about sixty tons, and her engine, which is of about thirty-six horse power, constructed by those enterprising engine builders Powell & Co. is placed in the stern, occupying but a comparatively small space. The escape of steam is in the chimney which passes out in a curve over the wheel which is in the stern—the whole weight of the machinery will not exceed three tons. Strength and compression of power within the smallest space have been consulted in the construction of the entire concern. The double tiller will obviate the difficulty which was one of the objections to the steam boat introduced on the canal a number of years ago,—raising a swell and washing the banks.

* * * * * * *

This new steamer, 'Niagara,' will be commanded by Capt. Dale, an old and experienced canal packet officer, who will put things through by 'the fast line.' The trade in which the boat is to run on the Extension between Defiance and Toledo. The 'Abergynes' along in the region of 'Section Ten' and 'the Junction' will open their eyes, as she streaks it through those diggins. Success to this experiment of those enterprising packet men, Messrs. Doyle and Dickey.

☞ We have seen a handbill advertising the Niagara to start on her first trip, from Cincinnati to Dayton & Piqua, on Wednesday last. If the trip prove successful we may expect to see her at our landing some day next week.

LATER FROM CALIFORNIA.

Arrival of the Empire City.

Great Riot at San Francisco!!!

NEW YORK, Sept. 13.

The Empire City arrived here this morning with one month's later news from California. Her dates are to Aug 2. She brings 49 passengers from Chagres, and 27 from Jamaica.

The greatest excitement had prevailed at San Francisco in consequence of a riot which took place on the 16th July. Seventeen men were arrested, and had a trial before the Alcalde, assisted by two gentlemen appointed by the people as [illegible] each head. The leader, Sam'l Roberts, was found guilty and sentenced to 10 years hard labor, where the Governor of California may direct. Theodore Saunders received the same sentence.—All others found guilty of various riotous proceedings, and sentenced to the Penitentiary for periods varying from 6 months to 1 year, accompanied with fines of from $250 to $1000.

The accounts from the diggings are to July 22d. Provisions were plenty at the mines, and goods may be obtained at Sacremento City at San Francisco prices.

Very rich deposites have been found north of the American River, at a place known as Smith's Bar. Digging has been attended with good fortune. There is a story of a Baltimorean who but recently arrived in the country having taken in one week upwards of $6,000 in gold from the spot, and this unaided with even common mining instruments. In the north the daily average per man from the best authenticated accounts can be safely set down at about one ounce.

The general health of those in the mines remains good.

FOREIGN NEWS.

Late and Important from Europe.

Arrival of the Steamer NIAGARA

TELEGRAPH OFFICE, St. Johns. N. B. }
Wednesday, Sept. 5, 1849. }

The steamer Niagara, Capt. Ryar, arrived at Halifax this morning at 6 o'clock, bringing later intelligence from Europe.

The steamer Europa, outward bound, arrived at Liverpool on the 20th ult.

RUSSIA, AUSTRIA, AND HUNGARY.—*Defeat of the Hungarians.*—The intelligence received on the Sunday previous to the sailing of the steamer, is of a most disastrous character.—The Hungarians have been defeated at all points, and the cause which they upheld against such powerful odds, is lost beyond redemption. The precise details of this unfortunate and unlooked for result, cannot be ascertained from the information within our reach. A portion of the intelligence is, that the Hugarians had been forced to lay down their arms and submit unconditionally to the Russians.

The Vienna correspondent of the London Times under date of August 18, says that the official report of the 8th ult., from Col. Basson, at Hermanstadt, gives the particulars. He proceeded towards Madgus, which he reached on the 2d with a force of 8,000 men, seventeen pieces of cannon being at this place. By an auxilliary force, consisting of 4,000 foot and 800 horse, and twelve pieces of cannon, and proceeded towards Hermanstadt. Hassford, who had been left with six battalions, eight guns and three hundred and fifty Cossacks to protect Hermanstadt, and had gone to Reisniht, where the grand victory, above mentioned, had been obtained over the insurgent General Veinal. The facts were made known to Tuders by scouts, and he, presuming that Bem would fall upon Hassford, and probably drive him into Wallachia and take possession of Hermanstadt, had nothing to do but to pursue Bem with all speed. Before, however, Tuders could overtake him, Bem became aware of the fact that Hassford had attacked and driven from his position, after a murderous battle, in Hermanstadt, in which he had so many killed and wounded that he had been obliged to retreat to Talmours on the 6th.

On the 10th, Truder's army was encamped before Hermanstadt—consisting of 6 battalions of 500 men each. Eighteen guns were placed on the neighboring heights, besides a considerable force which had been left in the city. The remainder of the army had gone in pursuit of Hassford. In the battle which ensued the Magyars were completely routed. The Russian cavalry put such of the fugitives as attempted flight, to the sword. The Hungarians lost 1200 prisoners and 14 pieces of cannon in this battle, besides 600 killed and 500 wounded, including the loss suffered by Hassford on the 5th.

This news produced a most dispiriting effect among the insurgents, and many of them threw away their arms and sought refuge in the woods, while others threw themselves on the mercy of the victors, and surrendered themselves as prisoners.

Vienna accounts by the way of Warsaw, under date of Aug. 16, state that the Hungarian Diet, after having surrendered their power to Georgey, had dissolved. A meeting consisting of Georgey and Bem, subsequently took place, when it was determined to end the war as sanguinary and useless.

Georgey, addressing the council of War, protested that he had no hopes for the cause of Hungary. All resistance was in vain.—Nothing but utter ruin would attend the prolongation of the struggle. The war party is headed by Bem and Kossuth as leading members. The Hungarian Parliament had nothing to do but to hasten to Ossavo. It is said that they have already entered upon Turkish territory. It is also stated that Kossuth carried with him the insignia of the Hungarian empire.

Georgey has surrendered to Prince Paskoewitch upon the single condition that he will intercede with the Austrian cabinet for himself, his troops and his country. Otherwise the surrender to the Russians was an unconditional one. It will be followed by the other Hungarian leaders.

By Telegraph from Hungary to Paris, on the Friday evening previous to the sailing of the Steamer, the La Presse states that the capitulation of Georgey, the Hungarian leader is to be attributed to the intervention of an English agent, and that the terms of the surrender were discussed and planned at Warsaw, during the journey Prince Swartzenburgh made to that city.

This submission, La Presse says, is neither the act of cowardice, nor yet one of despair, but is the result of negotiation skilfully conducted by Great Britain to save Hungary from the consequence of an unequal contest, and at the same time deprive Austria of the occupation and of a prolonged stay beyond her own frontier.

Letters from Vienna, under date of Aug. 20, says that the Emperor returned yesterday. It was expected that more details of the surrender by Georgey would transpire.

The Proclamations of Kossuth's resignation in favor of Georgey and of the letter addressed by him to the Hungarians, in which he entreats them to lay down their arms, as it was useless to fight in a lost cause, were looked for with much interest at Vienna.

The communication between Hungary, Moldavia and Gallacia, would open these places [illegible] from 6 to 10,000 well appointed and efficient troops will be added to the Austrian army.

Another account says that Kossuth, Nesors and Dembarsky are safe in Turkey.

A letter from Vienna, published in the Deutsche Revore, gives 27,000 as the number of troops surrendered by Georgey to the Russians. With the troops he also surrendered 60 pieces of artillery.

Kossuth, undaunted by the treason and misfortunes which assail him on every side, is determined to resist to the last, and still to save his country if possible. His wife and family are prisoners to the Austrians.

The charge is freely made that Georgey is a traitor to his country, having been tempted by Russian gold.

The Russian papers publish the following letter from the Prince Poskewitch to the Russian Autocrat:

"Hungary is at the feet of your Imperial majesty. The government of the insurgents have transmitted their power to Georgey the chief of the army of the insurgents, who has made an unconditional surrender to the Russian army. His example will be followed the other insurgents.

"The officers whom he sent, offered to proceed with or without Austrian commissioners, to the corps to induce them to surrender. I have the fortune to announce his unconditional submission."

ENGLAND.—*Progress of the Cholera, &c.*—The political news from England contains no items, of interest worth telegraphing. The same may be said of France, the news from which is also barren of interest.

The official reports show an increase of mortality by the cholera in most parts of England.

Markets.—Flour is again rather low—parcels of good sound Western selling at 23s 6d a 24s—prime Ohio, 24s 6d a 25s. Corn has a steady demand at 25s 6d a 26s per quarter. Wheat—prime white is scarce, selling at 28 a 28s 6d. The finest quality is steady as to price. American and Canadian 7s 2d—red, 6s 2d a 6s 4d.

SIX DAYS LATER FROM VIENNA.

Arrival of the EUROPA.

ST. JOHNS Tuesday evening, Sept. 11.

The Europa arrived at Halifax at 8 o'clock Monday evening. In English manufacturing districts generally, the market continues improving and more firmness. The weather continues exceedingly fine both in England and Ireland. Harvest operations on the continent are proceeding in the most satisfactory manner, consequently the market for breadstuffs continues to recede. Advices from the north of Europe are not favorable for crops, but from every other section they are cheering in the highest degree. Markets for American cured provisions have been dull during the week, and ruling prices far from remunerating. There is good business doing in the corn market at improving prices.

HUNGARY.—Latest intelligence within our reach from Hungary is embraced in advices from Vienna, 26th ult. The news from that quarter continues blind and unsatisfactory—full of contradictions as ever. The London News says that the general belief throughout the continent is that the Hungarian General surrendered with his army to Prince Paskewitch, a pledge being given by the Russian commander that his master, the Czar, would guarantee the independence of Hungary.—The latest intelligence contains nothing to raise a doubt that Klapkia still holds possession of Comorn. One account affirms that an action was fought between Raab and Comorn, in which the Magyars obtained some advantage. Ban Jellachich arrived Lervisvar. He is stated to have met no opposition on the way and to have found roads covered with arms and warlike stores, that had been abandoned by the defeat of the Magyars. Bem and Breyam surrounded by Suders, left their troops and contrived to escape. According to the Wanderer, the decision of the Emperor, concerning the surrender of Georgey's corps, that they be partly enlisted in the imperial ranks and partly dismissed to their homes, and that the officers be submitted to trial.

Accounts from Pesth states that it was rumored that Kossuth had been captured on the frontier of Wallachia. Another account still from Turkey, assures us that Bem and Kossuth have arrived from Adrianople where they have embarked in a British ship. The letters from Georgey to Klapkia directing the surrender of Comorn, assigns no reason for his course other than he had become convinced of the hopelessness of their cause, and he wished to give peace to his country the only expedient to save it from utter perdition. Letters from Kossuth before he knew of the surrender of Georgey, said by Austrian authority to have been found, which contains a frank admission that the Mgyars' cause was irrevocably lost.

The Russian Minister in Paris in a formal note had given an assurance to the French government that the Emperor had not thought of territorial aggrandizement, but that he would retire with his army as soon as the Hungarians had laid down their arms.

PHILADELPHIA, Sept 7.

General Taylor reached here shortly after three o'clock, but did not land from the steamboat, but was transferred from the New York to the Baltimore boat. He is now on his way back to Washington. He stood on the hurricane deck, waving his handkerchief in acknowledgment of the greeting from the crowds on shore.

Water in the Canal.—The water which was recently let into the W. & E. Canal some distance above is gradually filling on to this place. We took a ride on the tow-path two days ago, and found the water within a mile and a half of town. The prospect now is, that the canal may be considered completed to Terre Haute, and that, barring untoward accidents, navigation may soon be had between this and Covington, and along the whole line of the canal north.—*Terre Haute Courier.*

NEW ORLEANS, Sept. 7.

Steamship Falcon arrived last evening, from Chagres, having touched at Havana.

Private letters from Cuba, state that the island is in the greatest commotion, but make not the slightest mention of insurrectionary movements there, except in a single instance, in which the Col. and several of the officers of one of the regiments were murdered. The Captain General was using the most energetic measures to suppress any attempt at rebellion that might occur in any portion of the Island. By an order of the Capt. General, the Falcon was prohibited from receiving any passengers at Havana, and no U.S. newspapers were allowed to pass through the Post Office.

The Commander of the Sloop of War, Albany now at Round Island has been requested by the Consul at Havana, to proceed there immediately. The blockade at Round Island which has been so rigidly enforced for some time is now discontinued.

The steamer Oliva had arrived from Tampa Bay where she had been with Gen Twiggs and Col. Gardners command. She left Fort Brook on the 25th of August. No communications had been had with the Indians whose numbers were supposed to have been 500 under the command of the celebrated chiefs Sam Jones and Billy Bowley.

Dates from the city of Mexico to the 21st August have been received, Congress was still in session, but doing nothing of importance

The cholera was still raging at Darrang Gen. Inma had died there, Gen Bustamente had been relieved of his command of the army of Gen. Minon in consequence of bad health.

The steamer Great West arrived at N. York, on Saturday evening with $100,000 in gold dust.

ST. LOUIS, Sept. 4.

The interments for the week ending yesterday amounted to 75, of which [illegible] Sloan's Column.—We call attention to Sloan's column for new notices of his unrivalled medicines. We have come to the conclusion after reading these highly complimentary notices, that the medicine is some if not more. It has a great name, and from the testimony of those who have proved its efficacy, we should judge it to be just the thing for the times. We say success to that which is truly useful.—*Wisconsin Standard, May 5, 1849.*

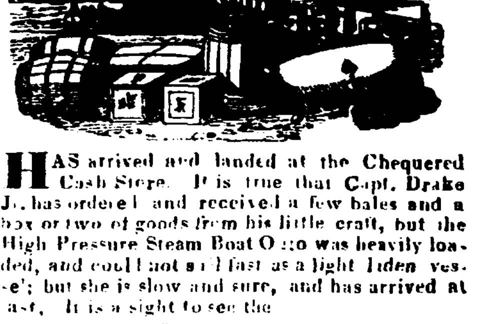
The High Pressure Steam Boat Ohio



HAS arrived and landed at the Chequered Cash Store. It is true that Capt. Drake Jr. has ordered and received a few bales and a box or two of goods from his little craft, but the High Pressure Steam Boat Ohio was heavily loaded, and could not sail fast as a light laden vessel; but she is slow and sure, and has arrived at last. It is a sight to see the

Great Quantities of Goods

she has brought. She was loaded entirely for us, but she did not bring half of our Goods. They were bought by the package, consequently we purchased more than we ought, but it will make us the more anxious to sell them It is a well known fact that Jobbers in New York make from 15 to 25 per cent and by purchasing of manufacturers and agents this year we have saved that profit, and it is also a well known fact that cotton and wool have both advanced since our purchases very much—the former 50 per cent.; consequently all kinds of domestic manufactured goods have gone up in price. We purchased the most of our goods in the first week in August.—Our customers will see at once what a decided advantage we have over our neighbors. We can sell our goods for what they pay, and make money.

Let every man, woman, and child that comes to Fort Wayne call and satisfy themselves with regard to prices, qualities, and styles of our goods. Capt. Drake Jr. (by the way a good fellow) says he can sell 16 yards of Muslin for one dollar.—We would say to him and our old and valued friend Maj. Edsall, and our customers generally, that we will sell

20 Yards of Good Muslin for One Dollar!

and that we can make something at it at that; and that is not all,—we will sell

20 YARDS CALICO FOR ONE DOLLAR!!

We are also receiving a splendid assortment of BOOTS & SHOES, Ladies' Slippers, Walking shoes, Excelsiors, Gaiters, and lots of Children's Shoes.

Queensware, Groceries, &c.

We have also opened a CARPET ROOM, where we can show as large and handsome stock of Carpets, and as cheap as can be found west of Buffalo. Our stock consists of 3 ply, superfine, extra fine, and fine Ingrain Carpets, Cotton Chain and Cotton Ingrain Carpets, Venetian and Stair Carpets, Drugget's Rugs, Carpet Binding, Stair Rods, Carpet Bags, Satchels, &c.

COUNTRY MERCHANTS can replenish their stocks with us on as favorable terms as any other house in the west. We have bought most of our stock with a view to WHOLESALE.

The highest market price in cash will be paid for WHEAT, and we will take in exchange for goods at wholesale or retail all kinds of Country PRODUCE. Don't forget the place, the Chequered Store, formerly the Ohio Cash Store, the mammoth Steamboat Flag will, the elements permitting, and where there is no danger of breakers, we unfold to the breeze. The Ready-Pay principle will be strictly adhered to by

VALUABLE

Mill Property for Sale.

THE undersigned offers for sale his Mill Property situate on the Elkhart River, in Noble County, Indiana, 40 miles north west from Fort Wayne and the Wabash and Erie Canal.—The property is now improved with a SAW-MILL, and Head Gates for GRIST and other MILLS. The Dam is one of the best in the country, and has been built only two years, but during that time has withstood without the slightest injury unusual freshets that caused more or less damage to all other dams on the river. The supply of water is unfailing, and sufficient with the head of 7½ feet of driving 4 run of 4½ feet stones, Saw Mill and Woollen Mill at all times, and during most of the year almost any amount of machinery could be propelled.

The Saw Mill has recently been put in first rate order, and is considered one of the best in the west. Logs in any quantity of the best kind, such as Poplar, Black Walnut, Ash, Oak, and Cherry, can always be obtained.

The property is situate in the midst of a thickly settled country, where mills are much needed and water power scarce, thereby insuring to the owner a monopoly of the milling business of the country, if well managed.

In connection with the mill and water power, will be sold

160 ACRES OF LAND

on which the mill is situated, together with Timber got out for the erection of a Flouring Mill.

For particulars as to the construction of the dam amount, durability, and value of the water power, &c. inquire of Mr. S. V. BYRD, Millwright, Fort Wayne.

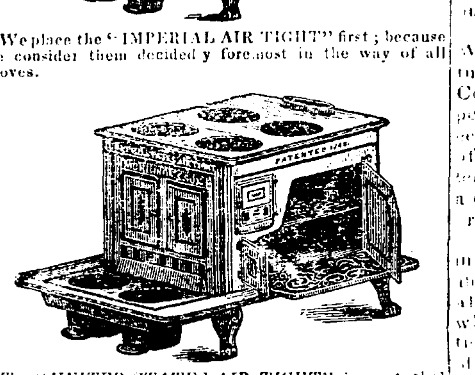
N. P. STOCKBRIDGE,
City Treasurer.
Fort Wayne, Sept. 12, 1849.

B. W. OAKLEY,

THANKFUL for the favors of the past, would respectfully inform his old customers and the public generally that his Fall and Winter supply has in part arrived, and is still coming; so that by the close of navigation all demands for the season can be promptly filled.

STOVES.

We place the "IMPERIAL AIR TIGHT" first; because we consider them decidedly foremost in the way of all Stoves.

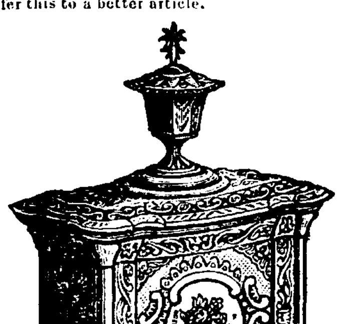


PATENTED 1848.

The "UNITED STATES AIR TIGHT" is next, tho' many consider them equal, if not superior to those above—and with them may be classed the Washington and Troy Air Tights and the Quackenboss Air Tights, of Albany.

PREMIUM STOVES.

Among the different kinds of Premium Cooking Stoves we have the "Troy Victory," to the excellent qualities of which all who have ever tried them will readily attest. We selected them as the best premium stove in market, and the increased demand for them induced us to bring on a large assortment. We have also the common premiums from Buffalo and Cincinnati, and last though not least, the "*Farmer,*" with no roses or superficial ornaments, but so well recommended that any one wishing a stove can take it, and bring it back again if it does not work well. Last, & least in the Cooking line stands the great "*Hathaway,*" of Dayton, which we keep on hand for the especial benefit of those who prefer this to a better article.



Parlor Stoves of Cast or Sheet Iron, Dining Room Stove Shop and Store Room Stoves of all varieties and sizes from a meeting house to a 10 by 12.

In connection with our Stove trade we have added a small but well selected assortment of

Castings and Hardware.

Consisting in the main of all the most essential and necessary articles used by farmers and mechanics.

Our *Tin and Copper* business is still as noisy as ever, and all hands ready and happy to wait upon those who desire any thing in our line. B. W. OAKLEY.

N. B.—Old Copper. Brass. Rags, Ginseng, Beeswax, &c., &c., received in exchange for Goods. B. W. O.

Fort Wayne, October 23, 1848. y17.

HIGHLY IMPORTANT—Gent's White *Kid* and Silk Gloves—an indispensable article on certain *interesting occasions.* Just rec'd. by
Sept. 8. MRS. DYKES.

A CALL.

ALL persons indebted to us by Note, Book Account, or otherwise, are requested to make immediate payment at the office of the late Receiver, over our old store, where there will be a person in constant attendance for a short time to settle with all who will favor us with a call.—This notice is intended for no person in particular, but for "*every body*" indebted to us, and we hope none will consider themselves excused.

We shall attend to this matter but a short time personally, when the accounts will be handed over *without reserve* to proper officers for *prompt collection.* Duty to our creditors as well as ourselves demand this course, and when it is borne in mind that we have never yet sued *one* of our customers, we trust our past lenity will prompt a ready response to this call.

BARNETT & NELSON.

Engines! Engines!

THE undersigned respectfully informs the public that he is now prepared to manufacture at his Foundry in this city, **ENGINES** of all sizes and patterns, and after the most approved styles. Persons wishing Engines will do well to give him a call before making permanent arrangements elsewhere. JAMES STORY.
Fort Wayne, July 14, 1849 2

Medical Card.

DR. ROBERT McNEILL (late Surgeon in the United States Volunteer Service in Mexico) offers his professional services to the citizens of Fort Wayne and vicinity.—In addition to his experience in the army, he has had the advantage of several years' private practice in the West, and will be found familiar with the diseases incident to the western country.

He may be found at his office on Calhoun street, above T. K. Brackenridge's Store, or at the Spencer House, and will be happy to attend to *any* business entrusted to him; and at *all times* when not professionally engaged.

Fort Wayne, July 6, 1849. 6m1.

Notice

IS hereby given, that the following assessment has been ordered by the Directors of the Fort Wayne & Lima Turnpike Company: Four Dollars on each share of stock subscribed in money, payable to O. W. Jefferds, Treasurer of said Company, at his office in Fort Wayne, on or before the 9th day of September next.

*Educated at West Point. †Educated at the Virginia Military Institute.

Two hundred and thirty Cadets, from fifteen different States, have entered this Institution since it was organized, in 1847. It is entirely free from the control or domination of any sect or party, either political or religious. Economy in dress, in the adoption of a cheap Uniform, for Winter and Summer, is rigidly enforced. Every student is required to select a *College guardian,* with whom all funds brought or received must be deposited, and no debt must be contracted without the consent of such guardian.

An Institution combining the sciences of the West Point Academy and of Polytechnic Institutes, with the classical literature of our best Colleges, adding the modern languages, and superadding practical schools of Law and Engineering, nearly realizes the long-felt desideratum of a university able to meet the wants of Western progress—a university where all *may* select a course of study to suit their time, means and professional destination.

Mr. DAVIESS, the Professor of Law, is known in the various Courts as a practitioner of great ability, varied learning, long experience and exalted character. His eminent qualifications, the wholesome exercises and discipline of the Institution, and the convenient observation of the forms of judicial proceedings, offer unusual inducements to those who are earnest to achieve distinction as sound Lawyers.

CIVIL ENGINEERING

Will be *thoroughly* and *practically* taught in the Western Military Institute—the Professor, Col. MORGAN, being one of the most skilled and experienced Engineers in the United States. All the instruments connected with that department, have been procured at considerable cost, and of the best quality.

The Superintendent takes the liberty of stating that he is now offered seventy-five dollars per month for competent assistant Engineers. One of his former pupils receives at this time $2 500 per annum as Principal Engineer of a Rail road now *under construction in Kentucky*—whilst others of the same class are receiving in different parts of the United States, $2000, $1500, and $1000 a year as assistant Engineers.

The time is rapidly approaching when there will be a great demand for such as have been prepared for that vocation at the Western Military Institute. Nothing is hazarded in saying that they will readily command $1200 or $1500 per annum. Every man of observation must see that the gigantic enterprise already proposed, will give birth to hundreds of others, tributary to them. The rapid advancement of our whole country, and the eagerness of our people for exploring the hidden resources of the new States and the newly acquired territory, will give ample scope *for ages to come,* to the skill and enterprise of the Engineer, the Geologist, the Mineralogist, the Surveyor, and the Architect. Young men who have an *aptitude* for the Mathematical and Physical sciences, will have a wide field opened to them for engaging in an honorable, a healthful and a lucrative pursuit, for which they may be thoroughly and practically qualified, in a short time, and at small expense, at the Western Military Institute.

TERMS:

In the Academy, $30 00 per annum.
In the College, 40 00 " "
For music and use of arms and accoutrements 3 00 " "
For fuel, 2 00 " "

Boarding can be had in private families, at from two to two and a half dollars a week. When in Barracks, it is designed to furnish Commons at a uniform rate. Students from a distance will be required to board at the Institute, and have no communication with the town, except as allowed by written permits.

☞ The next session will commence on the first of September and continue ten months.

SLOAN'S COLUMN.

☞ All the Medicines advertised by W. B. Sloan are sold by merchants, Druggists, &c. in nearly every town in all the Western States, and by Dr. L. BEECHER, Fort Wayne.

The best and cheapest Horse Medicine in the World.

SLOAN'S OINTMENT AND CONDITION POWDER, have earned a great name. For Purity, Mildness, Safety, Certainty and Thoroughness, Sloan's Ointment excels, and is rapidly superseding all other Ointments and Liniments now in use for the cure of the following diseases:

Fresh Wounds, Galls of all kinds, Sprains, Bruises, Cracked Heels, Ringbone, [illegible], Windgalls, Poll Evil, Callus, Spavins, Sweeney, Fistula, Sitfast, Strains, Lameness, Sand Crack, Foundered Feet, Scratches or Grease, Mange, or Horn Distemper.

The Powder will remove all inflammation and fever, purify the blood, loosen the skin, cleanse the water, and strengthen every part of the body; and has proved a sovereign remedy for the following diseases: Distemper, Hide Bound, Loss of Appetite, Inward Strain, Yellow Water, Inflamation of the Eyes, Fatigue from hard exercise; also, Rheumatism, (commonly called stiff complaint,) which proves so fatal to many valuable horses in this country. It is also a sure and certain remedy for coughs and colds which generate so many fatal diseases.

W. B. SLOAN.
Grand Depot, 40 Lake St., Chicago, Illinois

The Proof.

Extract from the Galena "Northwestern Gazette."

☞ By the use of Sloan's Ointment and Condition Powder, I have entirely cured a Fistula on my horse and otherwise improved his condition more than 500 per cent., on the cost of the medicine. And a cow which was so feeble as to be considered worthless by myself and neighbors, was restored to good health and strength, by the use of less than half a package of the powders, and is now doing better than any other cow I have WM. VINCENT.

Small Pox, May 13, 1848.

THE SUFFERING CHILD.

I hereby certify that one of my children, when naked, fell into a large fire of live coals, and was burned severely from head to feet. The best of medical aid and attention was given to the child for four or five days without any relief—each day's suffering increased till his groans could be heard at a great distance, at which critical period one of my neighbors recommended and presented to me a box of SLOAN'S OINTMENT, and in less than fifteen minutes after the application of the Ointment to the aggravated sores of the suffering child, the pain ceased entirely, and he speedily began to recover. My residence is in Helt Township, Vermillion county, and State of Indiana.

THEODORE L. TAYLOR.
Dated at Chicago, Aug. 24, 1848.

EXTRAORDINARY CURE.

April 13th, 1848. Four miles north of Chicago (on the road to Milwaukie,) Cook County, Illinois.

Mr. Sloan—Dear Sir: One of my horses had a large bony tumor on his breast bone, immediately [illegible] collar, which lamed him and [illegible] nally [illegible] Ointment, and in less than sixty days from the first application the tumor entirely disappeared, and the horse was well.

Yours, EDWARD ARMSTRONG.

POPULAR OPINION.

If popular opinion is any criterion of the merits of an article, we invite the incredulous to read at least a few of the many voluntary certificates that appear in our columns respecting the great variety of remarkable cures effected by the use of "Sloan's Celebrated Ointment and Condition Powders,"

These remedies no longer remain among those of doubtful utility, they have passed from the tide of experiment, and now stand high in reputation and are becoming more extensively used than all other articles of the kind.—[illegible] *City News.*

The half has not been told.

Fox River, June 12, 1848.

Dr. Sloan—Sir: Please send by the bearer a new supply of your Horse Medicines. They are the best of the kind that I have ever used, never having been disappointed in their effects, as I have been in the use of other, even the most celebrated Ointments, Liniments, &c., of the day. I like very much this feature in them, viz: that they do all that is promised, and upon a thorough trial one is constrained to add, that "half has not been told.

Respectfully, M. DUDLEY.

THE DIFFERENCE.

The ordinary Ointments and Liniments it is well known, are severe and partial in their operation. Sloan's Ointment is mild yet thorough—it reaches and removes the cause, hence it gives real and permanent relief.

For purity, mildness, safety, certainty, and thoroughness, SLOAN'S Ointment excels, and is rapidly superceding all other Ointments and Liniments now in use.

WE CAN'T GET ALONG WITHOUT IT!

BEEBE'S GROVE, Will Co., Ill.
October 24, 1848.

Mr. Sloan—

SIR: I have tested the virtue of your Ointment in the cure of rattlesnake bites, sore throat, burns, and many other injuries, and in every case is has surpassed our expectations. As a family Ointment, I have never seen its equal, and for beasts we can't get along without it.

Yours, &c., MILES M. JOHNSON.

Excellent Ointment.

Mr. Sloan—Dear Sir: For a considerable length of time I was seriously afflicted with the Rheumatic complaint, and applied freely the various liniments, pain killers, &c., without obtaining relief. After which your Agent at this place influenced me to try your Ointment, and within two weeks from the time I commenced using it, the pain ceased, and I was effectually cured, and shall recommend all who are similarly afflicted with the distressing complaint, to procure your excellent ointment without delay.

Respectfully yours, OSCAR F. MAYE.
Princeville, Peoria Co., May 1, 1848.

☞ From the Hon. H. V. S. Brooks, Agent of the Illinois and Michigan Canal Packet Boat Company.

Chicago, June 24, 1848.

Dr. W. B. Sloan—

DEAR SIR: For the last 30 years I have had occasion to use many horses, and have used the great variety of Liniments and Ointments in use, but have never found any thing equal to your Ointment for injuries on horses. Within the last two months I have applied your Ointment to some 80 horses, for various injuries, and in every instance it has proved a sovereign remedy.

A FINGER BITTEN ENTIRELY OFF.

Two miles south of Chicago, Sept. 14, 1848.

Dr. Sloan—SIR: On the 8th instant my son had a finger bitten entirely off by a horse. We immediately applied your celebrated Ointment, which relieved him of pain in a few minutes, and prevented the finger from swelling the least particle, and the wound is healing rapidly.

y2 Respectfully yours, S. BROCKWAY.

Stoves. Stoves. Stoves!

MORE of the latest styles and most improved patents in the way of HOT AIR COOKING STOVES, are now arriving at the Old Stand.

SIGN OF THE PAD LOCK.

From the following descriptions it will be seen that exertions the proprietor of this establishment is constantly making to supply the public with the latest improvements in the line of his business.

He now offers for sale the splendid 4 Boiler

Niagara Hot Air Cooking STOVE.

Warranted to economise fifty per cent in the amount of fuel it uses, and the time it takes to boil or bake, over any other stove in use in this or any other country.

The next is the same man's patent of 3 Boiler

Niagara Hot Air Cooking Stove.

which takes in nearly three feet wood, with all the advantages of the other. (See plate above.

These Stoves took the first premium at a recent fair of the Erie County agricultural society, New York.

Next comes the good old EMPIRE HOT AIR COOKING STOVE, which is so well known in this country, *with two ovens*, one being portable. Also, the

Hathaway Hot Air [illegible] who have them in use,—the proprietor [illegible] of that number. The next is another new stove called the

Knickerbacker Hot Air,

which is now having a great run in the East, and no doubt will *run* quite as fast out West, as soon as it is seen and its qualities understood.

Then comes the Premium Cooking Stoves all sizes;
The Noncondensing Hot Air Parlor Stoves;
The Ten and Seven Plate Stoves;

All of them are made of the best and heaviest Castings, and are

Warranted to stand fire.

without breaking.

After these, comes the *Russia Sheet Iron Parlor Office Stoves*, made to order, any size that may be wanted.

TIN WARE manufactured and sold whole sale at Eastern prices. Country merchants will find it to their advantage to call here for their supplies of this article.

Tin Plate, Sheet Copper, Sheet Iron and Block Tin kept constantly on hand and for sale to the trade, at the New York Hardware Store, sign of the Pad Lock.

PURE LIQUORS.

A Fresh supply of Pure Liquors for Medicine, consisting of Brandy, Gin, Port, Madeira, and Teneriffee WINES, for sale at WALKER'S Drug Store.

No Cure No Pay.

I Would inform the world that I have a Remedy for curing or healing Ruptures, without any pain in the operation, and without ever seeing the place thus ruptured. Some of the wise and learned may laugh and scorn at the proposition, but don't be too fast, this is no new fiction, my father has practiced the Remedy over forty years in the East, and I have cured three persons myself. I give this to the public, because I beleive it to be my duty to do all the good I can to my fellows. WM. IBA.

And I would also request editors of papers in the Country to make a short paragraph of the above in their sheets, and by so doing they will confer a blessing on some of their patrons.

Protection
Fire & Marine Insurance Company

THE subscriber has been appointed an Agent of the *Protection Insurance Company*, of Hartford, Conn., at Fort Wayne, Indiana, and is authorized to

Insure Dwelling Houses, Stores, Warehouses, Mills, Manufactories, Barns, Stables,

and the contents of each, together with every other similar species of property

Against loss or damage by Fire.

The subscriber is also authorized to issue Policies on the most favorable terms

Against loss or damage on the cargoes of Steam, Keel, Canal, and Flat Boats, while navigating the Western Rivers, Lakes, and Canals.

On account of the liberal patronage heretofore extended to said Company, they have been enabled greatly to reduce their rates of Insurance, so that now every man has an opportunity, for a trifling sum, to protect himself against the ravages of these destructive elements.

For terms of Insurance, apply to the subscriber, at the office, of Hough & Turner, on Calhoun street, north of the Spencer House.
R. D. TURNER.

Connecticut Mutual Life Insurance Company,

THE UNDERSIGNED HAVING BEEN appointed an agent for said company, is authorized to make every kind and manner of Insurance appertaining to Life Risks, for a certain number of years or for life, grant annuities, and confer endowments.

The provisions of the charter of said company are peculiarly favorable to the assured—containing many important privileges, which experience has proved may be safely granted, and which are deemed superior to any heretofore offered in this country.

Married women may insure the lives of their husbands, secure from the demands of creditors,

Creditors may insure their debtors, or debtors themselves, for the benefit of creditors.

The assured after a term of years, may at any time surrender the policy and receive its equitable value in cash.

The subject of Life Insurance is attracting much attention in the Eastern States, and commends itself to the favorable consideration of all, as by this means a comfortable support may be left to the wife and children when misfortune comes upon them, and the husband and father is taken from their embrace by the cold hand of death.

Pamphlets, explanatory of the uses and benefits arising from Life Insurances, will be furnished those wishing to be insured.

The undersigned is also agent for the HARTFORD FIRE INSURANCE COMPANY, HARTFORD, CONN.

There is no real occasion for sickness!

Dr. Ralph's Pills,

FOUNDED on the only principle on which a UNIVERSAL MEDICINE can safely and conscientiously be recommended to the world. They are fast superceding every other remedy for Dyspepsia, Indigestion, Acidity, Heartburn, Costiveness, all Impurities of the blood, Biliousness, Liver Diseases, Fever & Ague, the DISEASES OF WESTERN CLIMATE, &c. The reason is obvious—they act in

PERFECT ACCORDANCE WITH NATURE.

Their operation is exceedingly mild and pleasant, and if taken in accordance with the directions, which are remarkably plain and clear,

THEY CANNOT FAIL TO CURE

and to perfectly prevent diseases of every kind (see explanation of the new theory in the 'Ralphian' an invaluable paper which may be had gratis of the agents.) Their unexampled success in all the complaints of FEMALES, and those also attending pregnancy, is acknowledged by thousands.

NO FEMALE SHOULD BE WITHOUT THEM

Testimonials of cures, of every disease the human system is *liable* to, often after all other means had failed, are consequently being received at the Central Office, N. Y. City.

Price 25 cents a box, with full directions, and Family packages at $1, (in which is much saving.)

J. B. Hanna, Fort Wayne, having been appointed general agent, will supply this celebrated medicine, wholesale and retail, on the same terms as at the Central Office.

Read the following testimony from W. W. Steevens, principal of the Classical & Commercial Academy, Fort Wayne, Ind.:

"Having had repeated opportunities for the last fourteen years of witnessing the great benefits various persons have derived from the use of Doctor RALPH'S PILLS, and knowing Doctor I. RALPH to be a graduate of the University of Edinburg, a member of the Royal College of Surgeons, London, and of the Medical College of the State of New York; also a Physician of *Long, Extensive and successful Practice*, I cordially recommend said Pills to all who may be afflicted with diseases for which the Pills are recommended, believing they will perform all that is promised for them if the directions for using them be strictly followed.

W. W. STEEVENS.
Fort Wayne, July, 1848.

"DEAR SIR: In compliance with your request I would state that I have used Doctor RALPH'S PILLS in my family for something like ten years, and am satisfied that they are an excellent family Medicine. I have no doubt but that the use of them has at different times saved myself and family much sickness and expense.

HUGH MILLER."
To J. B. HANNA.

The above Pills can be had at wholesale of J. B. HANNA, General Agent at Fort Wayne.

They are also sold at retail by A. B. Miller, Ligonier; E. D. Bartlett & Co., La Grange Centre; C. R. Walker, *Fort Wayne*; DeFrees, Wolf Lake; Peter Heller Eel River; Robert Dykes, Ontario; J. N. Alleman, May's Mills; L. S Bayless, Bayless's Mills.

THE IMMENSE
Mineral Wealth of California

HAS induced thousands to abandon the comforts of home and brave the hardships and horrors of a trip across the Rocky Mountains, or the perils of a passage round Cape Horn all of which may now be avoided, and as fair a chance found of making money at home. It is an old adage that *a penny saved is two-pence earned*; there is no trouble in making money here, the only thing is, to keep it after it is made. This may in a great measure be accomplished by buying at

B. MASON'S
Celebrated Cheap Store,

where goods can be had so cheap that none who make all their purchases there can fail to save enough to make themselves rich, and that too without running the risks necessary to pick up gold on the Sacramento.

A large stock of SPRING & SUMMER GOODS has just been received, including a beautiful assortment of

Fancy Dress Goods.

Silks, Bareges, Linen Lawns Linen Poplins, Lawns, Ginghams, White Lawns, Swiss Mulls, Plaid Mulls and Jaconets, Victoria Lawns, Nankeens, Calicoes, &c. Besides all kinds of staple goods, such as Shirtings, Sheetings, Checks, Drillings, and all sorts of Summer Wear.

It is needless to say more than that the stock now on hand at this establishment fully equals all former ones, and is offered at even less than *Mason's unrivalled low prices.* Call and satisfy yourselves.

The stock of GROCERIES is large, and all of the choicest quality—nothing else is ever kept, and they will be sold as Cheap or CHEAPER than the inferior articles offered in some of the blowing *gas-houses* in this city. DYE STUFFS—Madder, Indigo, Alum, &c.

QUEENSWARE.—A large and most beautiful assortment of the latest styles.

HARDWARE.—A full stock, which is offered very low.

Every thing in the shape of BOOTS AND SHOES, from a Stogie Boot to a Baby's Shoe—including Misses' Gaiters, Slippers, Walking Shoes, &c., and Gents' Calf Boots, Water Proof Boots, Shoes, Bootees, &c &c. at very reduced prices.

HATS AND CAPS in great variety—from a Broadway *Bon Ton* to a shilling cap.

STATIONERY.—He has also a large stock of Stationery—including School Books, Cap and Letter Paper, Envelopes &c. &c.

Also an endless variety of NOTIONS—such as Steel Beads, Clasps, and Purse Twists; Combs in great variety;—Travelling Bags; Pen and Pocket Knives, and every thing else that is neat, tasty, fashionable or desirable.

Notice.

THE Firm of SAMUEL HANNA & SONS was dissolved in July last. This is to give notice to all concerned, that the notes and accounts due said firm, both in this county and Noble, have been put in the hands of Mr. WM. C. TAYLOR for collection, who is authorized to receive and receipt for the same. Many persons owing have been repeatedly called on for payment, and as often neglected to pay, until I have become ashamed to ask them again; but I assure all persons indebted that unless their attention is immediately directed to the subject, they will find those claims in the hands of an officer for collection.

We are not disposed to puff ourselves into notoriety, like some of our neighbors, as we believe actions speak louder than words; but intend that all who give us a call shall be satisfied that better bargains can be had at this establishment than at any *gass* house in the city. Those who want genuine good articles at fair prices will find this the place to purchase. Persons living in the country, even if they do not want to trade over $5, will save money, by harnessing up their teams, coming here and getting articles they will have some satisfaction in wearing, instead of trading with those *Itinerant Israelites* who are now flooding the country with their trash.

A SAVING OF AT LEAST FIFTY PER CENT will be the natural consequence of taking his advice. Call and try.

GREAT AMERICAN REMEDY
WESTERN NEW YORK
COLLEGE OF HEALTH.
207 *Main Street, Buffalo, N. Y.*
DR. G. C. VAUGHN'S
Vegetable Lithontriptic Mixture.

THIS celebrated remedy is constantly increasing its fame by the many cures it is making

ALL OVER THE WORLD.

It has now become *the only medicine for family use*, and particularly recommended for

DROPSY:

all stages of this complaint immediately relieved, no matter of how long standing. *See Pamphlet for testimony.*

GRAVEL,

and all diseases of the urinary organs; for these distressing complaints *it stands alone*; no other article can relieve you and the cures testified to will convince the most skeptical; *see pamphlet.* Liver Complaint, Billious diseases,

FEVER AND AGUE.

To the Great West especially, and wherever these complaints prevail this medicine is offered.

NO MINERAL AGENT.

no deleterious compound is a part of this mixture, it cures these diseases with certainty and celerity, and does not leave the system torpid. See Pamphlet.

PILES,

a complaint of a most painful character, is

IMMEDIATELY RELIEVED,

and a cure follows by a few days use of this article: it is far before any other preparation for this disease, or for any other disease originating from impure blood. See pamphlet.

DEBILITY OF THE SYSTEM,

weak back, weakness of the Kidneys, &c., or inflammation of the same, is immediately relieved by a few days use of this medicine, and a cure is always a result of its use. It stands as

A CERTAIN REMEDY

for such complaints, and also for derangements of the female frame IRREGULARITIES SUPPRESSIONS,

painful menstruations. No article has ever been offered except this which would touch this kind of derangements. It may be relied upon as a sure and effective remedy, and did we feel permitted to do so could give

A THOUSAND NAMES

as proof of cures in this distressing class of complaints. See pamphlet. All broken down, debilitated constitutions from *the effect of mercury*, will find the bracing power of this article to act immediately, and the poisonous mineral eradicated from the system.

ERUPTIVE DISEASES

will find the alterative properties of this article

PURIFY THE BLOOD,

and drive such diseases from the system. See pamphlet for testimony of cures in all diseases, which the limits of an advertisement will not permit to be named here. Agents *give them away*; they contain 32 pages of certificates of high character, and a stronger

Cash for 20,000 Bushels
OF WHEAT,
At the Empire Mills.

WE are prepared to pay CASH and the HIGHEST PRICE for 20,000 bushels of good merchantable Wheat.

Farmers and Teamsters will save themselves much trouble and expense by driving directly up to the STONE MILLS and unloading; they will always get the highest price, and avoid the annoyance of being pestered by the barkers and whipper snappers from the stores, who now infest our streets and are such a bore to all who bring wheat to our *market*. We are *not much given to boasting*; but as some of our neighbors are talking of *wanting 10,000 bushels of wheat*, we would inform wheat raisers that we can take in 20,000; as our *Mill*, besides being the best, is the biggest, the highest, and the strongest in the country. We have a convenient WAGON-YARD and STABLE, for teams coming to the Mill, and a HOUSE for the Teamsters; we always furnish feed for the horses, and occasionally throw in Supper and Breakfast for their drivers. This is nothing new with us—we have always thought it our duty to do so, and should not now mention it if our neighbors had not set the example.

We keep constantly on hand FLOUR OF THE BEST QUALITY and all kinds of Mill Stuff: and promptly grind every thing in the shape of Custom Work—always excepting White Oak Tan Bark, or the "face of the Poor."

POETRY.

WHY LOVE WE LIFE.

Why love we life with anxious thought,
Why hold this earth so dear,
Why breathe we prayers in earnest oft,
For days still longer here?

Oh, is not life a union formed,
'Twixt body, soul and earth,
And union's principle is love,
In progress as in birth?

'Tis even right and wise and good
To hold this union dear,
And wrong to wish the temple razed
That holds the soul here.

And e'en the world was made for man,
And God pronounced it good;
It yields us blessings by his will
And gives us clothes and food.

In beauty, too, 'tis worth our love,
And many are the joys
We may extract, if wise we live,
For life's not all alloys.

There's love and good and happiness
Mixed up in man's earth-lot,
And if for these he clings to it
'Tis nature—blame it not.

And may not earth, renewed and pure,
Yet be the Heaven we seek,
Where man with perfect nature blessed,
Eternal truth shall speak?

Where Heaven its throne of love shall set,
And saints be gathered round
To sing the praise of him who died,
And kings and priests be crowned.

Then surely earth has much to love—
But more when wrong shall cease;
And all mankind as brothers joined,
Enjoy eternal peace.

TAYLORISM DENOUNCED AND RENOUNCED BY AN ORIGINAL TAYLOR MAN.

We copy from the Marion (Grant county) Western Union, MR. B. F. WALLACE's communication, giving his reasons for abandoning Taylorism and becoming a Democrat. Mr. Wallace, as is well known to most of our readers, was one of the earliest and most ardent supporters of General Taylor for the Presidency. He started the first Taylor paper in the state—The Rough & Ready Banner—at a time when most of those who now claim to be the peculiar supporters of his administration, and as such entitled to all the spoils of victory, were denouncing General Taylor's nomination as one not fit to be made, and asserting that a regard for whig principles absolutely forbid any such nomination. Mr. Wallace labored diligently through evil report and good report, in support of General Taylor, and having spent his capital and involved himself in embarrassments by the undertaking, he applied, after General Taylor commenced treading in the footsteps of the earlier Presidents, for an appointment. But, alas! he soon found that the spoils were not for those who had borne the heat and burden of the day; those who had stood in the fore front of the battle, were now compelled to give place to spoil hunters, who had only joined the ranks when victory seemed perched on their banner. Mr. Wallace's case, though a hard one, is by no means singular—most of the original Taylor men have been similarly slighted, and most of those who are now fattening on the loaves and fishes of the government, are those who were originally opposed to Gen. Taylor—the regular old Hunkers of whiggery.

From the Marion Western Union.

To the Voters of the Tenth Congressional District.

In the Card withdrawing my name as a candidate for Congress, (which was published in the "Western Union" some weeks before the election,) I promised to assign the reasons for my withdrawal, and, also, the reasons for my present political position. This duty, however, I had intended to delay until the dust and smoke of the August election and the excitement consequent upon victory or defeat, had entirely subsided,—at which time I was persuaded the reasons given in this communication would have met with a more rational criticism, and the power of its truths more generally acknowledged. In complying with my pledge at this time, I frankly admit that I have yielded my own preference at the instance of the editor of the "Western Union," as will be seen in his last week's paper, for whose opinions I have much respect. I have also been reminded of my pledge by many personal friends, who I am always ready to serve when in the right. In discharging this duty, I wish it understood that I have no personal interest to promote, no private griefs or disappointments to avenge. Whatever opinions I may express, or whatever principles I may favor, is the result of candid investigation and the experience of years; I therefore hope to have the privilege of enjoying them without incurring the displeasure of those who entertain different views.

First, then, I withdrew my name as a candidate for Congress because I thought that I could not be *elected*; this far, at least, I am sure of having credit for sincerity. Secondly, the party to which I claim to belong had selected their candidate by convention—one, too, whose ability and worth I could freely endorse, and whose principles I believe to be identical with my own; therefore, there could be no propriety in my resisting the will of my political friends.

I am not surprised that the few leather-spectacled gentlemen, whose ideas are stereotyped, who never had an original thought, and who know barely enough to follow the direction of their leading strings, should, parrot-like, utter the teachings of their prompters, and denounce those who have the moral honesty and integrity to follow the political course pointed out by reason, experience, and practical knowledge; nor is it strange that such near-sighted gentlemen are unable to see the consistency of supporting General Taylor for the Presidency and claiming to be a democrat and free soiler; but to every *reasonable* mind I have no doubt of making such course proper and consistent under the facts as they existed at the time. General Taylor was supported for the Presidency by the voters of the free States from the fact that he was *pledged* to approve the action of Congress upon all questions of "domestic policy." The Wilmot Proviso was urged by his friends as the most important question of "domestic policy" that then as now divided the American people. It was also believed that he cherished enough of the soldier's *pride of honor* to resist all the influences that might *undesiredly* be gathered around him; as also every attempt to mould him into the pliant political tool. It was also believed that the Wilmot Proviso, as an *unconditional* principle in any law organizing any of the Territories of the United States, would more readily be acquiesced in by Southerners if sanctioned by a Southern President, for the reason that he could not be chargeable with favoring the sectional jealousies and differing interest, which, to some extent, unfortunately exist. Nor could he be censured for yielding to a simultaneous and general expression of the advocates of true liberty to keep from the pages of our Statute books the authority for the further extension of a national blight, which denies to Americans the boast of even Englishmen, who say to the oppressed of all countries, "come, you touch *our* country and your *shackles* fall."

I admit, however, that there is some reason to distrust the action of the President upon the "Wilmot Proviso," notwithstanding his strongly implied pledge not only to approve it, as also his expressed opposition to the exercise of executive influence upon members of Congress, previous to or during the pendency of any measure. For no sooner did he reach Washington city, prior to his inauguration, than he sought to prevail upon his friends to sustain an amendment then pending, to the bill organizing the Territory of California, which amendment wholly compromitted the "Wilmot Proviso." The only excuse attempted by his friends for this violation of good faith is, that he was not then President, and was acting in the capacity of a private citizen. But every reflecting mind will readily see that it was the most auspicious time that he could have chosen for the accomplishment of the object. The favors of the new Administration were yet to be dispensed, and hungry expectants, both in and out of Congress, were in waiting, impatient for the honor of being the first to do his bidding. The appliances used are not positively known, but it is suspected that the *promise* of place induced others, as well as some of whom Indiana was once proud and willing to honor, to prostitute their integrity and duty to their constituents. There is reason then to distrust; and there is cause to fear that the political friends of the new Administration, if they have the power and do pass the Proviso, that it will be ingeniously clogged with some evidently unconstitutional proposition that will justify the President in vetoing it. Hence, it is the part of wisdom to guard this contingency by electing members to Congress who have no interest in shielding the President from responsibility. I still think, however, that if General Taylor is driven to the alternative, before the corruptions of the Capitol and the arts and machinations of restless aspirants to the succession throw their toils around him, he will redeem, though reluctantly, his pledge to the American people. If he does not, the frowns and execrations of an indignant public will be more fearful to the doer, than was that host who planted the black flag on the side of the mountain that overlooked the bloody field of Buena Vista." "There will be [illegible] ain [illegible] those political [illegible] be so complete as to issue any [illegible] his bidding. Ever [illegible] South whose peculiar interest would be protected by such a disregard of his pledge and sacrifice of his honor, notwithstanding they might wink at the treachery, would "pity the treason" and "despise the traitor." General Cass was clearly opposed upon constitutional grounds to any legislation by Congress upon the subject of slavery in the Territories, and the election of Martin Van Buren was entirely hopeless. Hence the propriety and consistency of *free* soilers voting for General Taylor who was committed to their policy, if sustained by Congress.

General Taylor said that he would never consent to be the President of a party; and now can any one be found so reckless of truth as to deny that he is the most proscriptive party President that we have ever had?—Will it be satisfactory to the people to be told that General Taylor does not desire to exercise the one man power, and to avoid it, has suffered the dignity of his station and his public obligations and duties to be merged in the profligacy and corruptions of the Cabinet?—Will an American's pride of country be exalted, when he knows that the individual selected to represent and reflect her honor and her principles, has so completely shrunk to the dimensions and character of the political puppet, that when interrogated in reference to questions of public interest, in the line of his legitimate official duty, dare but raise his finger to his lip in token of his silence and in obedience to his advisers!

When I speak of the profligacy and corruption of the Cabinet, I speak understandingly, for I happened to be one of those who confided in the sincerity of General Taylor's avowal, to be guided in the Administration of the Government by the simplicity and open republican "examples" of the "earlier Presidents," and so confiding, procured recommendations which fully endorsed my merit and capacity for some of the offices that were to be filled. They should at least have entitled me to some consideration. I accordingly visited Washington and presented myself at the office of Mr. Secretary Ewing, and enquired of the waiting-man at the door for Mr Ewing, and desired to see him: *I was then asked if I was a member of Congress*, which was answered in the negative, *and was promptly told that the Secretary could not be seen that day.* I made the same effort for several days in succession, and was finally very politely informed, *that I could not see the Secretary unless I was accompanied by a member of Congress. I then began to see for the first time what a Whig Administration meant by bringing the Government back to its "original simplicity and purity."* I immediately left and went in search of a member of Congress; I found the Hon. Richard W. Thompson of this State, who willingly consented to accompany me. The door was immediately opened when Mr. Thompson was announced, who entered, and in a few minutes returned and conducted me in and gave me a regular introduction according to court etiquette. I felt and acted, no doubt, as awkwardly as Mr. Ewing would have done fresh from the Salt Works. I told my business and presented my papers. The Secretary, however, declined examining them, as he said, in consequence of press of business, but looked at me with a searching eye, and seemed to be in expectation of some sinister proposition or some effort at Diplomacy—neither of which was offered, and the Secretary soon became impatient of my presence. I was the only applicant in the room, for more than one at a time was not admitted. Can any one account for Mr. Ewing's extreme *secrecy* in the discharge of his public duties, unless the offices are being let to bidders, or the patronage of the Department wielded to secure the succession? Why does he prefer yielding to the wishes of a member of Congress *privately* given, instead of an open expression of opinion from a large and respectable portion of the citizens of a State? Corruption knows why.—It was my good fortune not to understand the system of *financiering* for office under this administration, and I am proud that it was so, for I do not desire to hold office by a tenure that requires mercenary contribution.

Gen. Taylor positively said that he had 'no friends to reward, no enemies to punish.' The first he has strictly observed, and the latter relentlessly disregarded. This falsehood is indelibly written upon the fairest spot of his former fame. Where are the Democratic incumbents who have been brought to the block of the political executioners, who have not been beheaded? they cannot be found.—Where is the original friend of Gen. Taylor who has received an appointment at his hands? he is not known. Who, then, are the recipients of his especial favor?—that question is easily answered, because it is known to all—they are the drones of the Whig hive—who have nearly in every instance been repudiated by the people, by their own party friends, as stumbling blocks in the way of political success. Such men as have lived upon the emoluments of office, and they think they cannot live without it, have been kindly remembered by Gen. Taylor—such men as were whipped into his support and only held there by *constant vigilance* now have his entire confidence, from the fact I suppose that they manifested some discrimination and prudence, in giving him their support, *doubtingly*.

If Gen. Taylor has in truth forgotten his extreme veneration for the "examples of the earlier Presidents" and is determined upon making a portion of the offices under his patronage public charities—why has he no heart for those who stood with him, shoulder to shoulder in their country's struggles, and who less *fortunate* than himself have returned (*maimed* in body and shattered in constitution, wholly disabled from earning a support by day labor,) as they supposed to the bosom of a grateful country—such men have been ruthlessly misplaced from offices that afforded but a meagre pittance for their wants, to make room for others whose fortunes, connections, and political influence were thought necessary and profitable in the service of the *grateful old Soldier* in his new field of operation. Offices have been *bestowed* upon others, at the urgent solicitations of *near relatives*, who, years ago, were known to be destitute of the physical energy, efficiency and business qualifications necessary to discharge the duties of a village *postmaster* or *Justice of the Peace* by reason of the infirmities of age. Poor souls they are now made to stand one foot on the grave, and the other in a responsible public office, unavoidably dividing the time necessary for preparation for the first, and indispensable to a prompt discharge of the obligations of the second. Good and competent men have been removed to make place for *such successors*. Not that they were better or half as well qualified, nor because they *needed such charity*, but to gratify the zeal of others in their unaccountable abandonment of better friends. What a beautiful illustration of the "*examples of the earlier Presidents.*"

Having heretofore acted sometimes with the Whig party, and sometimes with the Democratic party, my true position has been questioned, but that I have always acted in my humble sphere with an eye to the best inter[illegible] I submit to [illegible] judge, but [illegible]

The whig party [illegible] had a theory, a platform which was [illegible] plausible, but well calculated to mislead the unsuspecting; yet upon investigation and practical illustration they were found to be unwise and were condemned by the American people. It consequently became necessary to new model, new dress and new furnish the platform, which process has been repeated so frequently and so differently, that so great is the confusion of principles that even the Apostles do not know their creed. It is all finally frittered away to the miserable duplicity and falsehoods represented by Truman Smith—who is regarded as the executor of the party. Hence I could not be a whig.

The Democratic party, on the other hand, stand upon the constitution, resolved to preserve it inviolate, and are openly pledged to practice upon such a line of policy as has heretofore advanced the prosperity of the whole country without interfering with the constitutional rights of any. They are now the friends of the Wilmot Proviso and in favor of the abolition of the Slave Trade in the District of Columbia, and these are the paramount questions that the citizens of the north wish to see settled with as little delay as possible, and to the Democratic party is now entrusted their speedy and equitable adjustment. In reference to all other public measures, there is but little if any difference of opinion. Hence the necessity of sustaining the party that have boldly adopted the principles that we approve, and hence the reason why I am a democrat.

B. F. WALLACE.

The Special Elections in Rhode Island.—We are told by gentlemen from Rhode Island that two causes mainly contributed to the election of *Nathan F. Dixon*, whig, to the Western Congressional District, over the late incumbent, Mr. Thurston, dem., viz: First, the coalition formed by the latter with the free soilers, (who only poll about 160 votes in the district,) and secondly, the great personal popularity of Mr. Dixon. The coalition disgusted many democrats, and induced them to stay away from the polls, or vote for the whig candidate. Mr. Dixon is a son of the late U. S. Senator, and not more in favor of a high tariff than Mr. Thurston. Both are what is called protectionists, though not of the ultra sort. In all the towns, except Jamestown and N. Shoreham, the votes stood: Dixon, 2,798; Thurston, 2,105; Dixon's majority, 693. At the trial in April last, Shearman, whig, received 1,949 votes, Thurston 2,017, Hall (free soil) 161, scattering 25.—*Jour. of Commerce.*

The Rhode Island papers also represent Mr. D. as standing in an *independent* position, pledged in no way, to any particular action. It will be quite refreshing to see one independent man in Congress. When will there be more, for they are greatly needed?

OLD WHITEY.—The New Orleans Delta has knocked away all the romance with which the public mind has invested the "only war horse of the General," as he is familiarly termed. So far from this, it seems that Taylor bought him of a "busted up" circus company, just before he marched to Corpus Christi.—Soon afterwards, the "Second Washington," remembering that the first Washington always rode his famous white charger at reviews, conceived the brilliant design of following in his footsteps—and accordingly old circus was duly caparisoned, and the General rode at the head of the column. But alas, he had not forgotten his old occupation; it mattered little to him whether he carried Caesar at a review, or a clown in the ring—and no sooner had the music struck up, than old whitey struck out a circle, which the rider found himself unable to restrain! Around they went over "the tan" one tugging at the bit, and the other at the reins—until at last, to the infinite amusement of his fellow-officers, the humble imitator of "the first and best," was landed on the turf. After this, old whitey was discarded, and made to associate with the pack mules at the tail of the train, until the necessities of his master brought him once more into service, at the battle of Buena Vista. We are sorry to learn these facts, as they take away one of the most interesting features of the most interesting administrations that ever flourished in the "heroic age."

SOLON ROBINSON.

The immortal Solon Robinson, of Lake Co., who for a year past has been travelling in the south, fattening at the tables of the cotton planters and tobacco growers, in a recent letter to the National Intelligencer thus announces his conversion to the interests of slavery:

"During my journey, I have had great opportunities to see negro slavery as it is, and am free to say, that all the objections I ever had to the institution must give way to the strong arguments of light and reason; that, at least to the negro, it brings a thousand blessings to one curse. I could tell you facts about the situation of the three hundred slaves upon the plantation of Col. Wade Hampton, where I now write this, that would go to show the condition of these people to be almost inconceivably better than that of thousands of white freemen throughout all this region—the same class of people from whence Col. Gregg has drawn his factory operatives, because they are found to be *cheaper* than blacks; and, *for an* obvious reason, there are no children, sick, or infirm, to be supported. They are *free*, which also means free to starve, if unable to work; while the slave is always provided for at his master's expense."

Very well done, Solon; you are really making fine progress when you step over from the side of freedom and humanity to the side of slavery and degradation. But you are in the highway, Solon, to place and preferment under this administration, and your somerset on the slavery question will go very far in relieving Truman Smith from any "embarrassment" he might feel in recommending you as an Indianian. Hang on to the skirts of the negro drivers, Solon, and you will do well enough. The administration needs the services of just such lick-spittles, and, unless they possess a tolerable degree of discrimination into your real character, will be sure to reward you. Remember the example of Cale Smith and Dick Thompson, and don't forget to bring us a lock of hair from the tail of Old Whitey when you get your commission.—*Goshen Democrat.*

Something New.—A consignment of one hundred and sixty bbls. and fifty half barrels Mackerel has been received by Mr. A. S. Kellogg, Esq., of this city from Quebec. They are part of a *large cargo* of different articles which were shipped direct from Montreal to Cleveland, in a Canadian vessel; and the fish shipped from Cleveland here. In return Mr. Kellogg sends back Kiln dried corn meal and other produce. We are informed that these Mackerel can be afforded about the same rates as in the New York market.

We learn that this consignment is made as an experiment to try our market, and test its advantages and that it is soon to be followed by other articles for the same purpose. If the experiment should prove successful (of which we have no doubt) it will be the opening of a [illegible] and important trade between Quebec and [illegible] for which we will [illegible] corn, meal, lumber and a variety of other products, which would result to the material benefit of both parties.

Some time since we mentioned that an application had been made to the Canadian authorities for the opening of the American vessels. This is a matter in which the west feel a deep interest. Since that time it has been decided that the Canadian Government has not the control of the matter, and the whole subject has been referred to the Home Government. If this desirable object can be brought about, a great and important trade will immediately spring up between the two countries. By opening the St. Lawrence to American vessels, the Mississippi will be placed in almost direct water communication with the Atlantic.—*Detroit Free Press.*

REDUCTION OF TOLLS.

Our State, as well as the State of Indiana, in our opinion greatly mistake their true interests in keeping the tolls on the Wabash and Miami Canals at the present extreme mark. No more productive country, nor one of greater area, in the world, is traversed by canals, than the Wabash and Miami Valleys. Scarcely twenty years have passed since the first white settlers commenced the work of subduing the soil along these two rivers, but now their united products, which find a market at Toledo on the East, and Cincinnati and New Orleans on the South, are worth in value from fifteen to seventeen millions annually. Of this large surplus, which consists of some one hundred and twenty different articles, some ten millions in value finds an outlet to the Eastern market at this point. The question may be reasonably asked, why does it not all take this route? We answer, that one of the greatest obstacles in the way of this is the heavy toll of the canals. Persons living at a distance from the canal, in Indiana, who have wheat, or pork, or corn for market, with no other means of getting it to a place of shipment, except by the imperfect roads of the country, will naturally transport their products to the place of shipment, at a season of good road and high prices, and when the river navigation affords an opportunity for Southern competition. Now we are bold to say that no competition from the Southern market would divert the trade in Northern produce or provision, along these valleys, from this point, if the expenses incident to transportation—and tolls especially—were graduated to a scale alike beneficial to the producer and the State. Beyond a compensatory amount, heavy tolls on public thoroughfares are as oppressive monopolies as any in the world. They are felt by the entire community; and while this is true of them in their general operation they are not less injurious as a matter of public policy. It might not be this year, nor next, after a reduction in tolls, that the revenue derivable from them would be ample to defray current expenses; but as a work of time, but a few years would elapse before it would be a richer source of revenue than it is under the present arrangement.—*Toledo Commercial Republican.*

A Large Frigate.—There is a large steam frigate building at Philadelphia, to be called the Susquehannah. It is expected that she will be ready to be launched in six or eight months. She will be 30 feet longer than the great ship of the line Pennsylvania; but her breadth of beam is much less, and her tonnage is but 3,500. She will carry but eight guns of heavy calibre—one of them, will be placed upon her bow, will throw hollow shot weighing 208 pounds. Her machinery will cost $300,000—the four boilers alone $30,000 each—and the whole vessel, when completed, about $600,000. Her crew will consist of about 300 men.

Heavy Damages and Important Verdict.—Rev. Alexander Campbell, President of Bethany (Va.) College, has received $10,000 damages of Rev. James Robinson, of Scotland.—Mr. Campbell, it will be remembered while on a tour through Scotland, in 1847, was arrested and imprisoned in Edinburgh, through the agency of the Rev. James Robinson, for having, while discoursing on the subject of slavery, uttered sentiments obnoxious to that gentleman. Some of his friends instituted a suit against Mr. R. This suit has recently terminated, and the result is a decree of the Lords of Council and Session in favor of Mr Campbell for two thousand pounds sterling.

An extraordinary Case of Hydrophobia.—A very singular case of hydrophobia has occurred in Southwark, the particulars of which from the attending physician, Dr. T. S. Reid, are as follows: The person affected was a Mr. Wm. Willets, a respectable citizen of the district. Mr. Willets is a man about 35 years of age, of *strong* constitution and active habits. On Tuesday evening, he returned from his labor in his usual good health. On Wednesday morning he arose with a stiffness in the side of his neck and numbness of the arm, which he attributed to exposure to a change of temperature during the night. He applied to Dr. Reid, who, finding no other apparent cause of disease, gave him a remedy, which, however, did not remove the disagreeable sensation. He grew rapidly worse, soon began to manifest all the usual symptoms of hydrophobia. A current of air passing over him when his eyes were closed would cause violent paroxysms. A drink of water would produce the same effect, though he complained greatly of thirst and evinced a strong desire to assist the efforts of the doctor to get him to drink.—He also exhibited the characteristic of spitting violently. Opiates were administered to him, and chloroform liberally, but they produced scarcely any effect, and on Friday *morning* the unfortunate man died. What is peculiar about the case is, that Mr. Willets had never been bitten by a rabid animal within his knowledge, and had no idea that his disease was hydrophobia. There was no pain attending his sickness, which in hydrophobia usually affects the wounded part and extends upwards to the seat of sensation. There was no wound and no injury perceptible, though Mr. Neil says the man was bitten a year ago by a dog that he was playing with, which subsequently died. All the symptoms were characteristic of the hydrophobia, and it is supposed to be a spontaneous case of that dreadful malady.—Both Dr. Reid and Dr. Condie, we understand, incline to that belief. The case is certainly extraordinary, and will interest the medical profession. We have no doubt it will be duly reported.—*Philadelphia Ledger.*

A Wife in Trouble.—"Pray tell me, my dear, what is the cause of those tears?"

"Oh, such a disgrace!"

"What—what is it my dear? Do not keep me in suspense."

"Why, I have opened one of your letters, supposing it addressed to myself. Certainly it looked more like Mrs. than Mr."

"Is that all?" What harm can there be in a wife's opening her husband's letters?"

"No harm in the thing itself. But the contents! Such disgrace!"

"What! has any one dared to write me a letter unfit to be read by my wife?"

"Oh, no, it is couched in the most chaste and gentlemanly language. But the contents! the contents!"

Here the wife buried her face in her handkerchief and commenced sobbing aloud, while her husband eagerly caught up the letter and commenced reading the epistle that had been the means of nearly breaking his wife's heart! *It was a bill from the printer for nine years' subscription!*—*Sandy Hill Herald.*

A Collapsed Cholera Patient!—Some weeks since, a Sheriff from one of the Reserve counties—*probably* from Cuyahoga county—by the name of Root, started for Columbus with three men sentenced to the Penitentiary. On his way down, one of them was taken with *severe* symptoms of cholera. (?) On his arrival at a town in Lorain county, called Huntington, the said cholera patient became very ill; so much so that the Sheriff, upon *medical advice*, concluded to leave the [illegible] became [illegible] that he soon fell into a *sound sleep*, with his eyes tight open. The nurse, thinking his case out of danger, also fell asleep. The *patient*, some time during the night, got able to be about, and concluded he was able to go out without assistance; and taking the sheets off the bed, made a kind of rope, which answered his purpose, and quietly let himself down to the ground and collapsed. Since that time he has not been heard from, although some search has been made. This is the first case of *cholera* that has been known to *go off* so easy.—We have not been informed of the name of the attending physician; but as he is a man of undoubted experience in cholera, we would advise him to settle in some more densely settled neighborhood. How would it do to make him physician to the Penitentiary? He would be great relief to the convicts.—*Ohio Statesman.*

Salt River and its Tributaries.—A Locofoco schoolmaster wishing to quiz a Whig urchin in the Geography class, inquired—"Master Jenkins, where does Salt salt River take its rise, and what are its principal tributaries?"

"Salt River," gravely replied Master Jenkins, "rises wherever's political party happens to fall, and its principal tributaries, at present are the two *branches* of Locofocoism in New York."

The schoolmaster fainted.

Pleasant Place to Live in.—Dr. Sayre, official physician of the 12th ward, N. Y., states that in the first election district of that ward, extending from Fortieth street to Ninetieth-st., and the Sixth avenue to the North River are over 20,000 *hogs*, 800 *voters* and 6,000 *inhabitants*. Since the 12th of June to this date there have been 470 cases and 164 deaths of cholera—in many cases taking off all in a house, and in some others, many of the same block, seeming to rage in *spots*. In this immediate vicinity are two tripe factories, 9 bone boiling establishments, 1 starch factory, 2 glue factories, 3 bone charcoal furnaces, 1 stable of 270 cows, without any drainage, and 1 establishment for the reception of dead animals, of which in the hot season there are many every day.

MARRIED.—Near Waterford, Mr. John Milton Latta to Miss Lydia Haney.

Lydia's heart went pit-a-pat,
When she answered Milton Latta,
"Fair or stormy, dry or rainy,
I'll be your own Lydia Haney!"
And she kept her word—she did that!

—*Goshen Democrat.*

'Did I not give you a flogging the other day?' said a schoolmaster to a trembling urchin. 'Yes sir,' said the boy. 'Well, what does the Scripture say on the subject?' 'I don't know, sir,' said the other, 'except it is in that passage which says 'it is more blessed to give than to receive.''

Sensible Advice.—"If you ever marry," said a Roman Consul to his son, "let it be to a woman who has judgement enough to superintend the getting of a meal of victuals; taste enough to dress herself; pride enough to wash her face before breakfast; and sense enough to hold her tongue when she has nothing to say."

Kentucky.—The Frankfort Commonwealth gives returns, official and reported, by which it appears that the whigs have a majority of about thirty on joint ballot in the Legislature. If the Convention, even in Casey county, which was reported a tie, has returned a whig as now claimed, the democrats will still have a majority of four, that body being composed of fifty-two Democrats and forty-eight Whigs.

Fight.—We are informed that Mr. D. Law, of Northport, in this county, and Dr. James McCollum got into a fight, in which the latter received several stabs with a pocket knife.—Mr. Law underwent an examination and was acquitted.—*Noble Co. Star.*

SATURDAY, SEPTEMBER 15, 1849.

NOTICE.

The members of Fire Company PROTECTION NO. 1, will meet this afternoon at 4 o'clock, at the Court House.

By order of the Company.

H. W. JONES, Sec'y.

Sept. 15, 1849.

Coming out from the Foul Party.

☞ Read Mr. B. F. WALLACE's renunciation of the errors of whiggery, on our first page. It will amply repay perusal.

NEW GOODS.—By our advertising columns it will be seen that Aylsworth & Borden have received an immense stock of new Goods, which they intend selling very low. Their stock of carpets, especially, beats any thing of the sort ever seen here—either for quantity, quality, or cheapness.

MOSES DRAKE jr. is also on hand with new goods. His well known taste in buying, and acknowledged liberality in selling, renders it unnecessary for us to do more than merely announce the fact that he has received new goods. Buyers will be sure to call at No. 3.

Abatement of the Cholera.—We are encouraged to hope that the cholera has spent its force and is about to leave us. For the last four days we have only heard of one new case, and that is now convalescent. We give a list of all the interments since our last, by which it will be seen that there has been only six deaths by cholera this week, and none since Tuesday last.

At the Catholic burial ground Mrs. Lamke was buried on Sunday and her son on Monday. No other interments.

At the City Burial Ground.

Sept. 9th.—William Parker.
10th.—Son of Andrew Gamble.
11th.—William Ruling.
12th.—Watson Morrow.
13th.—*Child of John Nill.

*Mr. Nill's child did not die of cholera.

Disastrous News from Hungary.—We give copious extracts of the melancholy news from Hungary, by which it will be seen that this heroic people have been overpowered in their patriotic attempts to establish their independence.

The accounts are contradictory, and we still entertain some hope that matters may not be quite so bad as they appear. The accounts are all derived from Austrian and Russian sources, and may be too highly colored. It is possible, that instead of being entirely overpowered, the Hungarians may have made some terms with their opponents securing their independence. We do sincerely hope this may be the case, as this gallant people, after their heroic sacrifices in the cause of freedom [illegible] left at the mercy of such despots as the Emperors of Russia and Austria [illegible]

If however they have been compelled to an unconditional surrender we should suspect bribery and treachery on the part of some of the leaders. Russian gold may have proved more irresistible than its steel and lead: & the Emperor of Russia well knows the potency of the valuable metal in accomplishing his ends. It is stated that proof can be produced that Georgey has been tampered with and bribed by Russian emissaries; and that an attempt was made to bribe Dembriskie, but that the latter indignantly spurned the bribe, and refused to betray his country and the sacred cause in which he was engaged.

Auditor of State.—An Auditor of State and Treasurer will have to be elected at the coming session of our Legislature. We notice in the State Sentinel that the name of *Dr. E. W. H. ELLIS*, editor of the Goshen Democrat, is announced as a candidate for Auditor of State, and that paper speaks quite favorably of the claims of Dr. Ellis to the nomination.

We hope the democrats in the Legislature may do the fair thing towards the north this time, and elect Dr. Ellis. Among all the aspirants who may present their claims, there will be no one, we venture to assert, better qualified, and perhaps few as well, to perform the duties of the station than our friend the Doctor; and assuredly there can be none who have stronger claims on the support of the party than he. For years he has done his duty faithfully, earnestly, and with ability, in support of the principles of the party, and as editor of the Goshen Democrat has wielded a powerful influence in the political regeneration of the state. That his labors have not been without effect is manifested by the vast increase in the democratic vote of the counties in which his paper circulates.

The north has now become the strongest and most reliably democratic portion of the state; but yet, strange as it may appear, its citizens have generally been overlooked in the selection of candidates for office; and even when they have been nominated in Legislative caucus, they have been basely forsaken by professing democratic members from the south. It is time this species of trickery and bargaining should cease, and we do hope that Dr. Ellis may be treated with fairness and honesty, and if he be selected by the caucus as the democratic candidate, that *every democrat* in the Legislature may feel in honor bound to vote for him. If the caucus, which we suppose will be held to decide which of the aspirants shall be selected as the democratic candidate, be conducted fairly, we know enough of Dr. Ellis to justify us in promising for him that he will cheerfully acquiesce in its decision, and if he should not be the nominee, will expect his friends to give the same support to the one selected that they would to him. But if, on the contrary, there should be any of that trickery and insincerity manifested by members from other parts of the state which have sometimes exhibited themselves on similar occasions, it may then be a question whether the democrats from the north ought longer to submit to the proscription we have so long endured. Much as we deprecate local and sectional differences and dissentions in our ranks, we are not prepared to say that we ought longer to succomb to this unfair course towards the north; if it should be again attempted we would prefer to see all the members from that portion of the state vote against the nominee, instead of tacitly aiding the efforts of those who have hitherto oppressed us, by supporting their candidate.

We trust however no such difficulty will arise. The north is fairly entitled this time to one of the state offices. Dr. Ellis is the candidate of the north, and as such we hope he may be elected.

The Lafayette Journal (whig) speaks thus favorably of Dr. Ellis' qualifications for the office in question:

"Dr. Ellis, Editor of the Goshen Democrat, is announced as a candidate for State Auditor. If Douglas Maguire is to be superceded by a Democrat, we hope the Doctor will be the man, for he has battled for his party long and faithfully; and his experience as County Auditor ever since the office was established in this State, has given abundant proof of his honesty and efficiency as a public officer."

General Taylor has arrived in Washington City. On the 10th inst he was reported to be still in very feeble health. His complaint is stated to be the bilious diarrhea.

Lafayette Daily Journal.—Mr. BAUSMAN, the "senior" of this sprightly sheet, has, we regret to notice, retired from the tripod, leaving the Journal in the hands of his partner Mr. A. WEST, by whom it will hereafter be conducted. We wish Brother Bausman abundant happiness in his retirement from the perplexing duties of the editorial chair; and at the same time hope our Brother West may continue to receive the liberal support his paper justly deserves.

The Fort Wayne Times.—Mr. W. H. Withers has retired from this establishment, and is succeeded by Mr. G. W. Wood, the former editor and proprietor. Mr. T. N. Hood still retains an interest in the establishment and it will hereafter be conducted under the firm of G. W. Wood & Co.

We welcome brother Wood back to the tripod, and wish the new firm every success.

Gen. Taylor's Northern Face.—Gen. Taylor, during his recent tour through Pennsylvania, was a very strenuous peace man, thinking no doubt that such a doctrine would be quite acceptable to the drab-colored descendants of Penn. He also, as we learn by the papers, expressed himself utterly hostile to the introduction of slavery into the new territories, knowing of course that such was the general feeling in that State. He is trying to become all things to all men. In Pennsylvania he is a peace man and free soiler; and in Massachusetts, if he had continued his tour that far, he would doubtless have become a rampant abolitionist, and taken the Mexican side of the war question.

The Pittsburgh Gazette gives the following account of the manner in which the General defined his position on the slavery question in Pittsburgh:

Taylor and Free Soil.—During the visit of President Taylor to Pittsburgh last week, he was interrogated in regard to his views on the question of slavery extension. The President with characteristic candor, responded in substance as follows:—Although a slave holder himself, he regarded slavery as a great moral and political evil, and would be infinitely rejoiced if it were every where utterly extinguished; he did not believe that Congress possessed the constitutional right to interfere with slavery in the States wherein it now existed, but it had the right and should exercise it, to prevent its extension into territory now free.—Since he had left Washington he had received a letter informing him that notice had been given to the government that the people of California were about to form a State Constitution, containing the slavery prohibition, and would apply for admission into the Union at an early day—he expressed his gratification at this, and declared that it should receive his cordial sanction, as he was utterly hostile to the introduction of slavery into the new territories."

We place this on record that our readers may have an opportunity of contrasting the General's Northern Face with his Southern one, when he takes a trip into the Slave holding states.

NOTHERN INDIANA CONFERENCE.

Appointments.—We copy from the Logansport Pharos the appointment of preachers for this district. Rev. G. M. Boyd, formerly of this place, is appointed to the Terre Haute Asbury Chapel; W. C. AN AVOWAL.—The *Blue Hen's Chicken* (Wilmington, Delaware) declares itself the first paper in Delaware to raise the Taylor flag; and that Deleware was carried for Taylor by its influence; and denounces the Party and the President for having violated their pledges of no proscription; and in a subsequent paragraph it makes the following avowal of its present position:

The Free Soil Party.—We may as well now declare to the people of Delaware, that we belong to the *Free Soil Party.* We go for *free soil for free men*—we go for the *Wilmot Proviso*—we go for the *non extension of Slavery*—we go for admitting no more slave States into the Union—we go for Liberty and against Slavery—we go for abolishing the slave trade and slavery in the District of Columbia. If necessary, we are willing that the U. S. shall allow a fair price for the slaves now owned therein. We go for abolishing slavery in Delaware, upon reasonable terms, and at the earliest practicable period; at the same time we are against the United States meddling with the dreadful institution in the States. We wish each State to get rid of the evil the best it can: and we verily believe that no country with slavery can long maintain true Republican institutions. The history of our free and slave States clearly demonstrate that slavery retards the march of population and improvement: and it is generally admitted that Christianity, morality, and virtue, become sickly and deteriorated in a slave soil: nevertheless, we go for justice to the slaveholder as well as others. They are all (except the slave dealer and slave breeder for the market, and the slave stealer) more to be pitied than condemned—*they know not what they do,* in upholding such a pestilential institution.

STEAM CANAL BOAT.—The Cincinnati Despatch says:

"This novel craft which is fitting up in the basin between Sycamore and Broadway, attracts much attention and considerable anxiety is manifested as to the success of the project of navigating our canals by steam."

* * * * * * *

The boat differs in external appearance only in the width being greater than that of the next model of the light new packets now in use, and in the increased strength of the timbers of this staunch built affair. Her burden is about sixty tons, and her engine, which is of about thirty-six horse power, constructed by those enterprising engine builders Powell & Co. is placed in the stern, occupying but a comparatively small space. The escape of steam is in the chimney which passes out in a curve over the wheel which is in the stern—the whole weight of the machinery will not exceed three tons. Strength and compression of power within the smallest space have been consulted in the construction of the entire concern. The double tiller will obviate the difficulty which was one of the objections to the steam boat introduced on the canal a number of years ago,—raising a swell and washing the banks.

* * * * * *

This new steamer, 'Niagara,' will be commanded by Capt. Dale, an old and experienced canal packet officer, who will put things through by 'the fast line.' The trade in which the boat is to run on the Extension between Defiance and Toledo. The 'Abergynes' along in the region of 'Section Ten' and 'the Junction' will open their eyes, as she streaks it through those diggins. Success to this experiment of these enterprising packet men, Messrs. Doyle and Dickey.

☞ We have seen a handbill advertising the Niagara to start on her first trip, from Cincinnati to Dayton & Piqua, on Wednesday last. If the trip prove successful we may expect to see her at our landing some day next week.

LATER FROM CALIFORNIA.

Arrival of the Empire City.

Great Riot at San Francisco!!!

NEW YORK, Sept. 13.

The Empire City arrived here this morning with one month's later news from California. Her dates are to Aug. 2. She brings 49 passengers from Chagres, and 27 from Jamaica.

The greatest excitement had prevailed at San Francisco in consequence of a riot which took place on the 16th July. Seventeen men were arrested, and had a trial before the Alcalde, assisted by two gentlemen appointed by the people as Secretaries, on a charge of conspiracy to rob the peaceful inhabitants of the district of their property, which charge was accompanied by specifications for each head. The leader, Sam'l Roberts, was found guilty and sentenced to 10 years hard labor, where the Governor of California may direct. Theodore Saunders received the same sentence.—All others found guilty of various riotous proceedings, and sentenced to the Penitentiary for periods varying from 6 months to 1 year, accompanied with fines of from $250 to $1000.

The accounts from the diggings are to July 22d. Provisions were plenty at the mines, and goods may be obtained at Sacremento City at San Francisco prices.

Very rich deposites have been found north of the American River, at a place known as Smith's Bar. Digging has been attended with good fortune. There is a story of a Baltimorean who but recently arrived in the country having taken in one week upwards of $6,000 in gold from the spot, and this obtained with even common mining instruments. In the north the daily average per man from the best authenticated accounts can be safely set down at about one ounce.

The general health of those in the mines remains good.

FOREIGN NEWS.

Late and Important from Europe.

Arrival of the Steamer NIAGARA.

TELEGRAPH OFFICE, St. Johns, N. B. }
Wednesday, Sept. 5, 1849. }

The steamer Niagara, Capt. Ryar, arrived at Halifax this morning at 6 o'clock, bringing later intelligence from Europe.

The steamer Europa, outward bound, arrived at Liverpool on the 29th ult.

RUSSIA, AUSTRIA, AND HUNGARY.—*Defeat of the Hungarians.*—The intelligence received on the Sunday previous to the sailing of the steamer, is of a most disastrous character. The Hungarians have been defeated at all points, and the cause which they upheld against such powerful odds, is lost beyond redemption. The precise details of this unfortunate and unlooked for result, cannot be ascertained from the information within our reach. A portion of the intelligence is, that the Hugarians had been forced to lay down their arms and submit unconditionally to the Russians.

The Vienna correspondent of the London Times under date of August 18, says that the official report of the 8th ult., from Col. Basson, at Hermanstadt, gives the particulars. He proceeded towards Madgus, which he reached on the 2d with a force of 8,000 men, seventeen pieces of cannon being at this place. By an auxiliary force, consisting of 4,000 foot and 800 horse, and twelve pieces of cannon, and proceeded towards Hermanstadt. Hassford, who had been left with six battalions, eight guns and three hundred and fifty Cossacks to protect Hermanstadt, and had gone to Reisnitz, where the grand victory, above mentioned, had been obtained over the insurgent General Veisal. The facts were made known to Tuders by scouts, and he, presuming that Bem would fall upon Hassford, and probably drive him into Wallachia and take possession of Hermanstadt, had nothing to do but to pursue Bem with all speed. Before, however, Tuders could overtake him, Bem became aware of the fact that Hassford had attacked and driven from his position, after a murderous battle, in Hermanstadt, in which he had so many killed and wounded that he had been obliged to retreat to Tahmours on the 6th.

On the 10th, Truder's army was encamped before Hermanstadt—consisting of 6 battalions of 500 men each. Eighteen guns were placed on the neighboring heights, besides a considerable force which had been left in the city. The remainder of the army had gone in pursuit of Hassford. In the battle which ensued the Magyars were completely routed. The Russian cavalry put such of the fugitives as attempted flight, to the sword. The Hungarians lost 1200 prisoners and 14 pieces of cannon in this battle, besides 600 killed and 500 wounded, including the loss suffered by Hassford on the 5th.

This news produced a most dispiriting effect among the insurgents, and many of them threw away their arms and sought refuge in the woods, while others threw themselves on the mercy of the victors, and surrendered themselves as prisoners.

Vienna accounts by the way of Warsaw, under date of Aug. 16, state that the Hungarian Diet, after having surrendered their power to Georgey, had dissolved. A meeting consisting of Georgey and Bem, subsequently took place, when it was determined to end the war as sanguinary and useless.

Georgey, addressing the council of War, protested that he had no hopes for the cause of Hungary. All resistance was in vain.—Nothing but utter ruin would attend the prolongation of the struggle. The war party is headed by Bem and Kossuth as leading members. The Hungarian Parliament had nothing to do but to hasten to Ossavo. It is said that they have already entered upon Turkish territory. It is also stated that Kossuth carried with him the insignia of the Hungarian empire.

Georgey has surrendered to Prince Paskoewitch upon the single condition that he will intercede with the Austrian cabinet for himself, his troops and his country. Otherwise the surrender to the Russians was an unconditional one. It will be followed by the other Hungarian leaders.

By Telegraph from Hungary to Paris, on the Friday evening previous to the sailing of the Steamer, the La Presse states that the capitulation of Georgey, the Hungarian leader is to be attributed to the intervention of an English agent, and that the terms of the surrender were discussed and planned at Warsaw, during the journey Prince Swartzenburgh made to that city.

This submission, La Presse says, is neither the act of cowardice, nor yet one of despair, but is the result of negotiation skilfully conducted by Great Britain to save Hungary from the consequence of an unequal contest, and at the same time deprive Austria of the occupation and of a prolonged stay beyond her own frontier.

Letters from Vienna, under date of Aug. 29, says that the Emperor returned yesterday. It was expected that more details of the surrender by Georgey would transpire.

The Proclamations of Kossuth's resignation in favor of Georgey and of the letter addressed by him to the Hungarians, in which he entreats them to lay down their arms, as it was useless to fight in a lost cause, were looked for with much interest at Vienna.

The communication between Hungary, Moldavia and Gallacia, would open these places to all. [illegible] The Algemeine Zeitung states that a large part of Georgey's army [illegible] the service of Austria. It is thought that from 6 to 10,000 well appointed and efficient troops will be added to the Austrian army.

Another account says that Kossuth, Nesors and Dembiuzky are safe in Turkey.

A letter from Vienna, published in the Deutsche Revore, gives 27,000 as the number of troops surrendered by Georgey to the Russians. With the troops he also surrendered 60 pieces of artillery.

Kossuth, undaunted by the treason and misfortunes which assail him on every side, is determined to resist to the last, and still to save his country if possible. His wife and family are prisoners to the Austrians.

The charge is freely made that Georgey is a traitor to his country, having been tempted by Russian gold.

The Russian papers publish the following letter from the Prince Paskewitch to the Russian Autocrat:

"Hungary is at the feet of your Imperial majesty. The government of the insurgents have transmitted their power to Georgey the chief of the army of the insurgents, who has made an unconditional surrender to the Russian army. His example will be followed the other insurgents.

"The officers whom he sent, offered to proceed with or without Austrian commissioners, to the corps to induce them to surrender. I have the fortune to announce his unconditional submission."

ENGLAND.—*Progress of the Cholera, &c.*—The political news from England contains no items, of interest worth telegraphing. The same may be said of France, the news from which is also barren of interest.

The official reports show an increase of mortality by the cholera in most parts of England.

Markets.—Flour is again rather low—parcels of good sound Western selling at 23s 6d a 24s—prime Ohio, 24s 6d a 25s. Corn has a steady demand at 25s 6d a 26s per quarter. Wheat—prime white is scarce, selling at 2s a 2s 6d. The finest quality is steady as to price. American and Canadian 7s 2d—red, 6s 2d a 6s 4d.

SIX DAYS LATER FROM VIENNA.

Arrival of the EUROPA.

ST. JOHNS Tuesday evening, Sept. 11.

The Europa arrived at Halifax at 8 o'clock Monday evening. In English manufacturing districts generally, the market continues improving and more firmness. The weather continues exceedingly fine both in England and Ireland. Harvest operations on the continent are proceeding in the most satisfactory manner, consequently the market for breadstuffs continues to recede. Advices from the north of Europe are not favorable for crops, but from every other section they are cheering in the highest degree. Markets for American cured provisions have been dull during the week, and ruling prices far from remunerating. There is good business doing in the corn market at improving prices.

HUNGARY.—Latest intelligence within our reach from Hungary is embraced in advices from Vienna, 26th ult. The news from that quarter continues blind and unsatisfactory—full of contradictions as ever. The London News says that the general belief throughout the continent is that the Hungarian General surrendered with his army to Prince Paskewitch, a pledge being given by the Russian commander that his master, the Czar, would guarantee the independence of Hungary.—The latest intelligence contains nothing to raise a doubt that Klapka still holds possession of Comorn. One account affirms that an action was fought between Raab and Comora, in which the Magyars obtained some advantage. Ban Jellachich arrived Lervisvar. He is stated to have met no opposition on the way and to have found roads covered with arms and warlike stores, that had been abandoned by the defeat of the Magyars. Bem and Breyam surrounded by Suders, left their troops and contrived to escape. According to the Wanderer, the decision of the Emperor, concerning the surrender of Georgey's corps, that they be partly enlisted in the imperial ranks and partly dismissed to their homes, and that the officers be submitted to trial.

Accounts from Pesth states that it was rumored that Kossuth had been captured on the frontier of Wallachia. Another account still from Turkey, assures us that Bem and Kossuth have arrived from Adrianople where they have embarked in a British ship. The letters from Georgey to Klapkin directing the surrender of Comorn, assgns no reason for his course other than he had become convinced of the hopelessness of their cause, and he wished to give peace to his country the only expedient to save it from utter perdition. Letters from Kossuth before he knew of the surrender of Georgey, said by Austrian authority to have been found, which contains a frank admission that the Magyars' cause was irrevocably lost.

The Russian Minister in Paris in a formal note had given an assurance to the French government that the Emperor had not thought of territorial aggrandizement, but that he would retire with his army as soon as the Hungarians had laid down their arms.

PHILADELPHIA, Sept 7.

General Taylor reached here shortly after three o'clock, but did not land from the steamboat, but was transferred from the New York to the Baltimore boat. He is now on his way back to Washington. He stood on the hurricane deck, waving his handkerchief in acknowledgment of the greeting from the crowds on shore.

Water in the Canal.—The water which was recently let into the W. & E. Canal some distance above is gradually filling on to this place. We took a ride on the tow-path two days ago, and found the water within a mile and a half of town. The prospect now is, that the canal may be considered completed to Terre Haute, and that, barring untoward accidents, navigation may soon be had between this and Covington, and along the whole line of the canal north.—*Terre Haute Courier.*

NEW ORLEANS, Sept. 7.

Steamship Falcon arrived last evening, from Chagres, having touched at Havana.

Private letters from Cuba, state that the island is in the greatest commotion, but make not the slightest mention of insurrectionary movements there, except in a single instance, in which the Col. and several of the officers of one of the regiments were murdered. The Captain General was using the most energetic measures to suppress any attempt at rebellion that might occur in any portion of the Island. By an order of the Capt. General, the Falcon was prohibited from receiving any passengers at Havana, and no U.S. newspapers were allowed to pass through the Post Office.

The Commander of the Sloop of War, Albany now at Round Island has been requested by the Consul at Havana, to proceed there immediately. The blockade at Round Island which has been so rigidly enforced for some time is now discontinued.

The steamer Oliva had arrived from Tampa Bay where she had been with Gen Twiggs and Col Gardners command. She left Fort Brook on the 25th of August. No communications had been had with the Indians whose numbers were supposed to have been 400 under the command of the celebrated chiefs Sam Jones and Billy Bowley.

Dates from the city of Mexico to the 21st August have been received, Congress was still in session, but doing nothing of importance.

The cholera was still raging at Darang. Gen. Inna had died there, Gen Bustamente had been removed of his command of the army of Gen. Mason in consequence of bad health.

The steamer Great West arrived at N. York, on Saturday evening with $100,000 in gold dust.

ST. LOUIS, Sept. 1.

The interments for the week ending yesterday amounted to 75, of which four were of cholera. Twenty-four of the whole number were under five years of age.

Unrivalled Medicine.

[illegible] Sloan's Column.—We call attention to Sloan's column for new notices of his unrivalled medicines. We have come to the conclusion after reading these highly complimentary notices, that the medicine is some if not more. It has a great name, and from the testimony of those who have proved its efficacy, we should judge it to be just the thing for the times. We say success to that which is truly useful.—*Wisconsin Standard, May 5, 1849.*

The High Pressure Steam Boat Ohio

HAS arrived and landed at the Chequered Cash Store. It is true that Capt. Drake Jr. has undertook and received a few bales and a box or two of goods from his little craft, but the High Pressure Steam Boat Ohio was heavily loaded, and could not run fast as a light laden vessel; but she is slow and sure, and has arrived at last. It is a sight to see the

Great Quantities of Goods

she has brought. She was loaded entirely for us, but she did not bring half of our Goods. They were bought by the package, consequently we purchased more than we ought, but it will make us the more anxious to sell them. It is a well known fact that Jobbers in New York make from 15 to 25 per cent and by purchasing of manufacturers and agents this year we have saved that profit, and it is also a well known fact that cotton and wool have both advanced since our purchases say from the former 50 per cent. & consequently all kinds of domestic manufactured goods have gone up in price. We purchased the most of our goods in the first week in August.—Our customers will see at once what a decided advantage we have over our neighbors. We can sell our goods for what they pay, and make money.

Let every man, woman, and child that comes to Fort Wayne call and satisfy themselves with regard to prices, qualities, and styles of our goods. Capt. Drake Jr. (by the way a good fellow) says he can sell 16 yards of Muslin for one dollar.—We would say to him and our old and valued friend Maj. Edsall, and our customers generally, that we will sell

20 *Yards of Good Muslin for One Dollar!*

and that we can make something at it at that; and that is not all,—we will sell

20 YARDS CALICO FOR ONE DOLLAR!!!

We are also receiving a splendid assortment of BOOTS & SHOES, Ladies' Slippers, Walking Shoes, Excelsiors, Gaiters, and lots of Children's Shoes.

Queensware, Groceries, &c.

We have also opened a CARPET ROOM, where we can show as large and handsome stock of Carpets, and as cheap as can be found west of Buffalo. Our stock consists of 3 ply, superfine, extra fine, and fine Ingrain Carpets, Cotton Chain and Cotton Ingrain Carpets, Venitian and Stair Carpets, Druggets, Rugs, Carpet Binding, Stair Rods, Carpet Bags, Satchels, &c.

COUNTRY MERCHANTS can replenish their stock with us on as favorable terms as any other house in the west. We have bought most of our stock with a view to WHOLESALE.

The highest market price in cash will be paid for WHEAT, and we will take in exchange for goods at wholesale or retail all kinds of Country PRODUCE. Don't forget the place, the Chequered Store, formerly the Ohio Cash Store, the mammoth Steamboat Flag will, the elements permitting, and where there is no danger of tramkers, we unfold to the breeze. VALUABLE

Mill Property for Sale.

THE undersigned offers for sale his Mill Property situate on the Elkhart River, in Noble County, Indiana, 40 miles north west from Fort Wayne and the Wabash and Erie Canal.—The property is now improved with a SAW-MILL, and Head Gates for GRIST and other MILLS. The Dam is one of the best in the country, and has been built only two years, but during that time has well stood without the slightest injury unusual freshets that caused more or less damage to all other dams on the river. The supply of water is unfailing, and sufficient with the head of 7½ feet of driving 4 run of 4½ feet stones, Saw Mill and Woollen Mill at all times, and during most of the year almost any amount of machinery could be propelled.

The Saw Mill has recently been put in first rate order, and is considered one of the best in the west. Logs in any quantity of the best kind, such as Poplar, Black Walnut, Ash, Oak, and Cherry, can always be obtained.

The property is situate in the midst of a thickly settled country, where mills are much needed and water power scarce, thereby insuring to the owner a monopoly of the milling business of the country, if well managed.

In connection with the mill and water power, will be sold

160 ACRES OF LAND

on which the mill is situated, together with Timber got out for the erection of a Flouring Mill.

For particulars as to the construction of the dam, amount, durability, and value of the water power, &c. inquire of Mr. S. V. Byrd, Millwright, Fort Wayne.

A. B. MILLER.

For particulars apply, if by letter post paid, to T. Tigar, editor of Fort Wayne Sentinel.

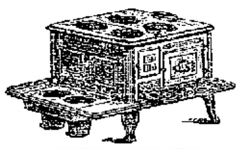
N. P. STOCKBRIDGE,
City Treasurer.

Fort Wayne, Sept. 12, 1849.

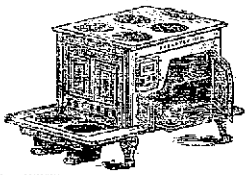
B. W. OAKLEY,

THANKFUL for the favors of the past, would respectfully inform his old customers and the public generally that his Fall and Winter supply has in part arrived, and is still coming; so that by the close of navigation all demands for the season can be promptly filled.

STOVES.



We place the "IMPERIAL AIR TIGHT" first; because we consider them decidedly foremost in the way of all Stoves.



The "UNITED STATES AIR TIGHT" is next, tho' many consider them equal, if not superior to those above:—and with them may be classed the Washington and Troy Air Tights and the Quackenboss Air Tights, of Albany.

PREMIUM STOVES.

Among the different kinds of Premium Cooking Stoves we have the "Troy Victory," to the excellent qualities of which all who have ever used them will readily attest. We select it them as the best premium stove in market, and the increased demand for them induced us to bring on a large assortment. We have also the premium preferences from Buffalo and Cincinnati, and last though not least, the "Farmer," with no rose or superficial ornaments, but so well recommended that any one wishing a stove can take it, and bring it back again if it does not work well. Last, & least in the Cooking line stands the great "Rotheway," of Dayton, which we keep on hand for the especial benefit of those who prefer this to a better article.

Parlor Stoves of Cast or Sheet Iron, Dining Room Stoves, Shop and Store Room Stoves of all varieties and sizes from a meeting house to a 10 by 12.

In connection with our Stove trade we have added a small but well selected assortment of

Castings and Hardware,

Consisting in the main of all the most essential and necessary articles used by farmers and mechanics.

Our Tin and Copper business is still as noisy as ever, and all hands ready and happy to wait upon those who desire any thing in our line. B. W. OAKLEY.

N. B.—Old Copper, Brass, Rags, Ginseng, Beeswax, &c., &c., received in exchange for Goods. B. W. O.

HIGHLY IMPORTANT—Gent's White Kid and Silk Gloves—an indispensable article on certain *interesting occasions.* Just rec'd by
Sept. 8. MRS. DYKES.

A CALL.

ALL persons indebted to us by Note, Book Account, or otherwise, are requested to make immediate payment at the office of the late Receiver, over our old store, where there will be a person in constant attendance for a short time to settle with all who will favor us with a call. This notice is intended for no person in particular, but for "*every body*" indebted to us, and we hope none will consider themselves excused.

We shall attend to this matter but a short time personally, when the accounts will be handed over *without reserve* to proper officers for *prompt collection.* Duty to our creditors as well as ourselves demand this course, and when it is borne in mind that we have never yet sued *one* of our customers, we trust our past lenity will prompt a ready response to this call.

Medical Card.

DR. ROBERT McNEILL (late Surgeon in the United States Volunteer Service in Mexico) offers his professional services to the citizens of Fort Wayne and vicinity.—In addition to his experience in the army, he has had the advantage of several years' private practice in the West, and will be found familiar with the diseases incident to the western country.

He may be found at his office on Calhoun street, above P. K. Brackenridge's Store, near the Spencer House, and will be happy to attend to any business entrusted to him, and at all times when not professionally engaged.
Fort Wayne, July 8, 1849. 6m1.

Notice

IS hereby given, that the following assessment has been ordered by the Directors of the Fort Wayne & Lima Turnpike Company: Four Dollars on each share of stock subscribed in said Company, payable to O. [illegible] Executive, to attend examinations at least once in the year, according to law.

FACULTY.

INCORPORATED with all the powers, privileges and rights exercised by the *Trustees* and *Faculty* of any other College.

*COL. T. F. JOHNSON, *General Superintendent.*
*COL. B. W. MORGAN, *Joint Superintendent, and Professor of Engineering and of Natural History.*
LIEUT. COL. E. R. JOHNSON, *Professor of Natural and Experimental Philosophy.*
†MAJ. W. A. FORBES, *Professor of Mathematics.*
RICHARD N. NEWELL, A. M., *Professor of Ancient and Modern Languages.*
JAMES G. BLAINE, A. B., *Adjunct Professor of Languages.*
REV. J. R. SWIFT, A. M., *Professor of Ethics and Belles Lettres.*
JAMES H. DAVIESS, Esq., *Professor of Law.*
REV. H. V. D. NEVIUS, A. M., *Principal of the Academy.*
CAPT. C. E. MOTT, *Teacher in the Academy.*
CAPT. W. W. GAUNT, *Adjutant of the Institute.*

*Educated at West Point. †Educated at the Virginia Military Institute.

Two hundred and thirty Cadets, from fifteen different States, have entered this Institution since it was organized, in 1847. It is entirely free from the control or dissension of any sect or party, either political or religious. Economy in dress, in the adoption of a cheap Uniform, for Winter and Summer, is rigidly enforced. Every student is required to select a College guardian, with whom all funds brought or received must be deposited, and no debt must be contracted without the consent of such guardian.

An Institution combining the science of the West Point Academy and of Polytechnic Institutes, with the classical literature of our best Colleges, adding the modern languages, and preparing practical schools of Law and Engineering, nearly realizes the long-felt desideratum of a university able to meet the wants of Western progress—a university in which each may select a course of study to suit his time, means and professional destination.

Mr. DAVIESS, the Professor of Law, is known in the various Courts as a practitioner of great ability, varied learning, long experience and excellent character. His additional qualifications, the wholesome exercise and discipline of the Institution, and the convenient observation of the forms of judicial proceedings, afford unusual inducements to those who are earnest to achieve distinction as sound lawyers.

CIVIL ENGINEERING

Will be *thoroughly* and *practically* taught in the Western Military Institute—the Professor, Col. MORGAN, being one of the most skilled and experienced Engineers in the United States. All the instruments connected with that department, have been procured at considerable cost, and of the best quality.

The Superintendent takes the liberty of stating that he is now offered seventy-five dollars per month for competent assistant Engineers. One of his former pupils receives at this time $2,500 per annum as Principal Engineer of a Railroad, now under construction in Kentucky—whilst others of the same class are receiving in different parts of the United States, $2,000, $1500, and $1,01 a year as assistant Engineers.

The time is rapidly approaching when there will be a great demand for such as have been prepared for that vocation at the Western Military Institute. Nothing is hazarded in saying that they will readily command $1200 or $1500 per annum. Every man of observation must see that the genuine celebrity already prepared, will give birth to hundreds of others, tributary to them. The rapid advancement of our whole country, and the eagerness of our people for exploring the hidden resources of the new States, and the newly acquired territory, will give ample scope for ages to come, to the skill and enterprise of the Engineer, the Geologist, the Mineralogist, the Surveyor and the Architect. Young men who have an *aptitude* for the Mathematical and Physical sciences, will have a wide field opened to them for engaging in an honorable, a healthful and a lucrative pursuit, for which they may be thoroughly and practically qualified in a short time, and at small expense, at the Western Military Institute.

TERMS:

In the Academy,	$29 00	per annum.
In the College,	44 00	" "
For music and use of arms and accoutrements	3 00	" "
For fuel,	2 00	" "

Boarding can be had in private families, at from two to two and a half dollars a week. When in Barracks, it is designed to furnish Commons at a uniform rate. Students from a distance will be required to board at the Institute, and have no communication with the town, except as allowed by written permits.

☞ The next session will commence on the first of September and continue ten months.

SLOAN'S COLU

☞ All the Medicines advertised [illegible] Sloan are sold by merchants, Druggists [illegible] in every town in all the Western States, and by Dr. L. Beecher, Fort Wayne.

The best and cheapest Horse Medicine in the World.

SLOAN'S OINTMENT AND CONDITION POWDER, have earned a great name. For Purity, Mildness, Safety, Certainty and Thoroughness, Sloan's Ointment excels, and is rapidly superseding all other Ointments and Liniments now in use for the cure of the following diseases:

Fresh Wounds, Galls of all kinds, [illegible] Bruises, Cracked Heels, Ringbone, [illegible] Windgalls, Poll Evil, Callus, Spavins, Sweeney, Fistula, Sitfast, Strains, Lameness, Sand Cracks, Foundered Feet, Scratches or Grease, Mange, or Horn Distemper.

The Powder will remove all inflammation and fever, purify the blood, loosen the skin, cleanse the water, and strengthen every part of the body; and has proved a sovereign remedy for the following diseases: Distemper, Hide Bound, Loss of Appetite, Inward Strain, Yellow Water, Inflammation of the Eyes, Fatigue from hard exercise; also, Rheumatism, (commonly called stiff complaint,) which proves so fatal to many valuable horses in this country. It is a safe and certain remedy for coughs and colds which generate so many fatal diseases.

W. B. SLOAN.
Grand Depot, 40 Lake St., Chicago, Illinois

The Proof.

Extract from the Galena "Northwestern Gazette."

☞ By the use of Sloan's Ointment and Condition Powder, I have entirely cured a Fistula on a horse and otherwise improved him [illegible] more than 500 per cent., on the cost of the medicine. And a cow which was so feeble as to be considered worthless by myself and neighbors, was restored to good health and strength by the use of less than half a package of the powder, and is now doing better than any other cow I have. WM. VINCENT.
Small Pox, May 13, 1848.

THE SUFFERING CHILD.

I hereby certify that one of my children, when naked, fell into a large fire of live coals, and was burned severely from head to feet. The best of medical aid and attention was given to the child for four or five days without any relief—each day's suffering increased till its groans could be heard at a great distance. At this critical period one of my neighbors recommended and presented to me a box of SLOAN'S OINTMENT, and in less than fifteen minutes after the application of the Ointment to the aggravated sores of the suffering child, the pain ceased entirely, and he speedily began to recover. My residence is in Helt Township, Vermilion county, and State of Indiana.
THEODORE L. TAYLOR.
Dated at Chicago, Aug. 24, 1848.

EXTRAORDINARY CURE.

April 13th, 1848. Four miles north of Chicago (on the road to Milwaukie.) Cook County Illinois.

Mr. Sloan—Dear Sir: One of my horses had a large bony tumor on his breast bone, immediately under the collar, which lamed him [illegible] [illegible] nally I obtained a box of your truly excellent Ointment, and in less than sixty days from the first application the tumor entirely disappeared, and the horse was well.
Yours, EDWARD ARMSTRONG.

POPULAR OPINION.

If popular opinion is any criterion of the worth of an article, we invite the incredulous to read, at least a few of the many voluntary certificates that appear in our columns respecting the great variety of remarkable cures effected by the use of "Sloan's Celebrated Ointment and Condition Powders."

These remedies no longer remain among those of doubtful utility, they have passed from the tide of experiment, and now stand high in reputation and are becoming more extensively used than all other articles of the kind.—*Ann City News.*

The half has not been told.

Fox River, June 12, 1848.

Dr. Sloan—Sir: Please send by the bearer a new supply of your Horse Medicines. They are the best of the kind that I have ever used, never having been disappointed in their effects as I have been in the use of other, even the most celebrated Ointments, Liniments, &c., of the day. I like very much this feature in them, that they do all that is promised, and upon a thorough trial one is constrained to add, that "the half has not been told."
Respectfully, M. DUDLEY.

THE DIFFERENCE.

The ordinary Ointments and Liniments it is well known, are severe and partial in their operation. Sloan's Ointment is mild yet thorough; it reaches and removes the cause, hence it is real and permanent relief.

For purity, mildness, safety, certainty, and thoroughness, SLOAN'S Ointment excels, and is rapidly superseding all other Ointments and Liniments now in use.

WE CAN'T GET ALONG WITHOUT IT.

BEEBE'S GROVE, Will Co., Ill.
October 24, 1848.

Mr. Sloan—

SIR: I have tested the virtue of your Ointment in the cure of rattlesnake bites, sore throat, burns, and many other injuries, and in every case it has surpassed our expectations. As a family Ointment, I have never seen its equal, and for beasts we can't get along without it.
Yours, &c., MILES M. JOHNSON.

Excellent Ointment.

Mr. Sloan—Dear Sir: For a considerable length of time I was seriously afflicted with the Rheumatic complaint, and applied freely various liniments, pain killers, &c., without obtaining relief. After which your Agent at this place influenced me to try your Ointment, and within two weeks from the time I commenced using it, the pain ceased, and I was effectually cured, and shall recommend all who are similarly afflicted with the distressing complaint, to procure your excellent ointment without delay.
Respectfully yours, OSCAR F. MAYO.

Chicago, June 24, 1848.

Dr. W. B. Sloan—

DEAR SIR: For the last 30 years I have had occasion to use many horses, and have used the great variety of Liniments and Ointments [illegible] but have never found any thing equal to your Ointment for injuries on horses. Within the last two months I have applied your Ointment to some 80 horses, for various injuries, and in every instance it has proved a sovereign remedy.

A FINGER BITTEN ENTIRELY OFF.

Two miles south of Chicago, Sept. 14, 1848.

Dr. Sloan—SIR: On the 8th instant my son had a finger bitten entirely off by a horse. We immediately applied your celebrated Ointment, which relieved him of pain in a few minutes, and prevented the finger from swelling, the [illegible] and the wound is healing rapidly.
12 Respectfully yours, S. BLOCKLEY.

Copartnership.

JOHN HOUGH, Jr., having formed a partnership with Reuben D. Turner, under the name and style of Hough & Turner, the firm will continue a general Land agency and Collecting business at the office of the "Indiana Land Agency."

Stoves, Stoves, Stoves!

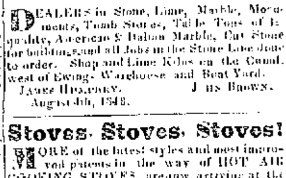
MORE of the latest styles and most improved patents in the way of HOT AIR COOKING STOVES, are now arriving at the Old Stand.

SIGN OF THE PAD LOCK.

From the following descriptions it will be seen that exertions the proprietor of this establishment is constantly making to supply the public with the latest improvements in the line of his business.

He now offers for sale the splendid 4 Boiler

Niagara Hot Air Cooking STOVE.



Warranted to economise fifty per cent in the amount of fuel it uses, and the time it takes to boil or bake, over any other stove in use in this or any other country.

The next is the same man's patent of 3 Boiler

Niagara Hot Air Cooking Stove.

which takes in nearly three feet wood, with all the advantages of the other. (See plate above.)

These Stoves took the first premium at a recent fair of the Erie County agricultural society, New York.

Next comes the good old EMPIRE HOT AIR COOKING STOVE, which is so well known in this country, *with two ovens,* one being portable. Also, the

Hathaway Hot Air Cooking [illegible] who have them in use,—the proprietor [illegible] next is another new stove called the

Knickerbacker Hot Air,

which is now having a great run in the East, and no doubt will run quite as fast out West as soon as it is seen and its qualities understood.

Then comes the Premium Cooking Stoves all sizes;

The Noncondensing Hot Air Parlor Stoves;

The Ten and Seven Plate Stoves;

All of them are made of the best and heaviest Castings, and are

Warranted to stand fire.

without breaking.

After these, comes the *Russia Sheet Iron Parlor Office Stoves,* made to order, any size that may be wanted.

TIN WARE manufactured and sold wholesale at Eastern prices. *Country merchants* will find it to their advantage to call here for their supplies of this article.

Tin Plate, Sheet Copper Sheet Iron and *Block Tin* kept constantly on hand and for sale to the trade, at the New York Hardware Store, sign of the Pad Lock.

No Cure No Pay.

I Would inform the world that I have a Remedy for curing or healing Ruptures, without any pain in the operation, and without ever seeing the place thus ruptured. Some of the wise and learned may laugh and scorn at the proposition, but don't be too fast, this is no new fiction. my father has practiced the Remedy over forty years in the East, and I have cured three persons myself. I give this to the public, because I believe it to be my duty to do all the good I can to my fellows. WM. HEA.

And I would also request editors of papers in the Country to make a short paragraph of the above in their sheets, and by so doing they will confer a blessing on some of their patrons. 6t38

Against loss or damage by Fire.

The subscriber is also authorized to issue Policies on the most favorable terms

Against loss or damage on the cargoes of Steam, Keel, Canal, and Flat Boats, while navigating the Western Rivers, Lakes, and Canals.

On account of the liberal patronage heretofore extended to said Company, they have been enabled greatly to reduce their rates of Insurance, so that now every man has an opportunity, for a trifling sum, to protect himself against the ravages of these destructive elements.

For terms of Insurance apply to the subscriber, at the office, of Hough & Turner, on Calhoun street, north of the Spencer House.
R. D. TURNER.

Connecticut Mutual Life Insurance Company,

THE UNDERSIGNED HAVING BEEN appointed an agent for said company, is authorized to make every kind and name of Insurance appertaining to Life Risks, for a certain number of years or for life, grant annuities, and confer endowments.

The provisions of the charter of said company are peculiarly favorable to the assured—containing many important privileges, which experience has proved may be safely granted, and which are deemed superior to any heretofore offered in this country.

Married women may insure the lives of their husbands, secure from the demands of creditors.

Creditors may insure their debtors, or debtors themselves, for the benefit of creditors.

The assured after a term of years, may at any time surrender the policy and receive its equitable value in cash.

The subject of Life Insurance is attracting much attention in the Eastern States, and commends itself to the favorable consideration of all, as by this means a comfortable support may be left to the wife and children when misfortune comes upon them, and the husband and father is taken from their embrace by the cold hand of death.

Pamphlets, explanatory of the uses and benefits arising from Life Insurances, will be furnished those wishing to be insured.

The undersigned is also agent for the HARTFORD FIRE INSURANCE COMPANY, HARTFORD, CONN.

There is no real occasion for sickness!

Dr. Ralph's Pills,

FOUNDED on the only principle on which a UNIVERSAL MEDICINE can safely and conscientiously be recommended to the world. They are fast superceding every other remedy for Dyspepsia, Indigestion, Acidity, Heartburn, Costiveness, all Impurities of the blood, Biliousness, Liver Diseases, Fever & Ague, the DISEASE OF WESTERN CLIMATE, &c. The reason is obvious—they act in

PERFECT ACCORDANCE WITH NATURE.

Their operation is exceedingly mild and pleasant, and if taken in accordance with the directions, which are remarkably plain and clear,

THEY CANNOT FAIL TO CURE

and to perfectly prevent those of every kind (see explanation of the new theory in the "Ralphian" an invaluable paper which may be had gratis of the agents.) Their unexampled success in all the complaints of FEMALES, and those also attending pregnancy, is acknowledged by thousands.

NO FEMALE SHOULD BE WITHOUT THEM

Testimonials of cures, of every disease the human system is liable to, often after all other means had failed, are consequently being received at the Central Office, N. Y. City.

Price 25 cents a box, with full directions, and Family packages at $1, (in which is much saving.)

J. B. Hanna, Fort Wayne, having been appointed general agent, will supply this celebrated medicine, wholesale and retail, on the same terms as at the Central Office.

Read the following testimony from W. W. Steevens, principal of the Classical & Commercial Academy, Fort Wayne, Ind.:

"Having had repeated opportunities for the last fourteen years of witnessing the great benefits various persons have derived from the use of DOCTOR RALPH'S PILLS, and knowing Doctor I. RALPH to be a graduate of the University of Edinburg, a member of the Royal College of Surgeons, London, and of the Medical College of the State of New York; also a Physician of *Long, Extensive and successful Practice,* I cordially recommend said Pills to all who may be afflicted with diseases for which the Pills are recommended, believing they will perform all that is promised for them if the directions for using them be strictly followed.
W. W. STEEVENS.
Fort Wayne, July, 1848.

"DEAR SIR: In compliance with your request I would state that I have used Doctor RALPH'S PILLS in my family for something like ten years, and am satisfied that they are an excellent family Medicine. I have no doubt but that the use of them has at different times saved myself and family much sickness and expense.

THE IMMENSE
Mineral Wealth of California

HAS induced thousands to abandon the comforts of home and brave the hardships and horrors of a trip across the Rocky Mountains, or the perils of a passage round Cape Horn—all of which may now be avoided, and as fair a chance found of making money at home. It is an old adage that *a penny saved is two pence earned;* there is no trouble in making money here, the only thing is, to keep it after it is made. This may in a great measure be accomplished by buying at

B. MASON'S
Celebrated Cheap Store,

where goods can be had so cheap that none who make all their purchases there can fail to save enough to make themselves rich, and that too without running the risks necessary to pick up gold on the Sacramento.

A large stock of SPRING & SUMMER GOODS has just been received, including a beautiful assortment of

Fancy Dress Goods.

Silks, Bareges, Linen Lawns, Poplins, Lawns, Gingham Lawns, White Lawns, Swiss Mulls, Plaid Mulls and Jaconets, Victoria Lawns, Nainsooks, Calicoes, &c. White and Red Crape, Embroidered Crape, Berage, and Silk SHAWLS. Parasols—a splendid assortment. Fans of every variety. Ladies' and Gents' Gloves. Leghorn, Palm Leaf, and Straw Hats. Besides all kinds of staple goods, such as Shirtings, Sheetings, Checks, Drillings, and all sorts of Summer Wear.

It is needless to say more than that the stock now on hand at this establishment fully equals all former ones, and is offered at even less than *Mason's unrivalled low prices.* Call and satisfy yourselves.

The stock of GROCERIES is large, and all of the choicest quality—nothing else is ever kept, and they will be sold as Cheap or CHEAPER than the inferior articles offered in some of the blowing *gasshouses* in this city. DYE STUFFS—Madder, Indigo, Alum, &c.

QUEENSWARE.—A large and most beautiful assortment of the latest styles.

HARDWARE.—A full stock, which is offered very low.

Every thing in the shape of BOOTS AND SHOES, from a Stogie Boot to a Baby's Shoe—including Misses' Gaiters, Slippers, Walking Shoes, &c., and Gents' Calf Boots, Water Proof Boots, Shoes, Bootees, &c. &c. at very reduced prices.

HATS AND CAPS in great variety—from a Broadway *Ben Ten* to a shilling cap.

Notice.

THE Firm of SAMUEL HANNA & SONS was dissolved in July last. This is to give notice to all concerned, that the notes and accounts due said firm, both in this county and Noble, have been put in the hands of Mr. WM. C. TAYLOR for collection, who is authorized to receive and receipt for the same. Many persons owing have been repeatedly called on for payment, and as often neglected to pay, until I have become ashamed to ask them again; but I assure all persons indebted that unless their attention is immediately directed to the subject, they will find those claims in the hands of an officer for collection.
SAMUEL HANNA.

Fancy Dress Goods,

Calicoes, Ginghams, Lawns, Trimmings, &c. &c. Drillings and Summer Goods of every description.

Groceries, Hardware, Queensware, &c., &c., &c.

We are not disposed to puff ourselves into notoriety, like some of our neighbors, as we believe actions speak louder than words; but intend that all who give us a call shall be satisfied that better bargains can be had at this establishment than at any gas house in the city. Those who want genuine good articles at fair prices will find this the place to purchase. Persons living in the country, even if they do not want to trade over $5, will save money, by harnessing up their teams, coming here and getting articles they will have some *satisfaction* in wearing, instead of trading with those *Itinerant Israelites* who are now flooding the country with their trash.

A SAVING OF AT LEAST FIFTY PER CENT will be the natural consequence of taking his advice. Call and try.

GREAT AMERICAN REMEDY

WESTERN NEW YORK
COLLEGE OF HEALTH.
207 Main Street, Buffalo, N. Y.
DR. G. C. VAUGHN'S
Vegetable Lithontriptic Mixture.

THIS celebrated remedy is constantly increasing its fame the many cures it is making

ALL OVER THE WORLD.

It has now become *the only medicine for family use,* and particularly recommended for

DROPSY;

all stages of this complaint immediately relieved, no matter of how long standing. *See Pamphlet for testimony.*

GRAVEL,

and all diseases of the urinary organs; for these distressing complaints it stands alone; no other article can relieve you and the cures testified to will convince the most skeptical; see pamphlet. Liver Complaint, Billious diseases,

FEVER AND AGUE.

To the Great West especially, and wherever these complaints prevail this medicine is offered.

NO MINERAL AGENT,

no deleterious compound is a part of this mixture, it cures these diseases with certainty and celerity, and does not leave the system torpid. *See Pamphlet.*

PILES,

a complaint of a most painful character, is

IMMEDIATELY RELIEVED,

and a cure follows by a few days use of this article: it is far before any other preparation for this disease, or for any other disease originating from impure blood. See pamphlet.

DEBILITY OF THE SYSTEM,

weak back, weakness of the Kidneys, &c., or inflammation of the same, is immediately relieved by a few days use of this medicine, and a cure is always a result of its use. It stands as

A CERTAIN REMEDY

for such complaints, and also for derangements of the female frame

IRREGULARITIES SUPPRESSIONS,

painful menstruations. No article has ever been offered except this which would touch this kind of derangements. It may be relied upon as a sure and effective remedy, and did we feel permitted to do so could give

A THOUSAND NAMES

as proof of cures in this distressing class of complaints. See pamphlet. All broken down, debilitated constitutions from the *effect of mercury,* will find the bracing power of this article to act immediately, and the poisonous mineral eradicated from the system.

ERUPTIVE DISEASES

will find the alterative properties of this article

PURIFY THE BLOOD,

and drive such diseases from the system. See pamphlet for testimony of cures in all diseases, which the limits of an advertisement will not permit to be named here. Agents give them away; they contain 32 pages of certificates of high character, and a stronger

ARRAY OF PROOF [illegible]

The virtues of a medicine, never appeared. [illegible] peculiar [illegible] of this article *that it never fails to benefit in any case,* and if bone and muscle are left to build upon, let the emaciated and lingering invalid [illegible]

HOPE ON,

and keep taking the medicine as long as there is an improvement. The proprietor would

CAUTION THE PUBLIC

against a number of articles which come out under the head of SARSAPARILLAS, SYRUPS, &C., as cures for Dropsy, Gravel, &c. *They are good for nothing* and concocted to gull the unwary.

TOUCH THEM NOT.

Their inventors never thought of curing such diseases till this article had done it. A particular study of the pamphlet is earnestly solicited.

Agents and all who sell the article are

GLAD TO CIRCULATE

gratuitously. Put up in 30 oz. bottles, at $2; 12 oz. do at $1 each—the larger holding 6 oz. more than two small bottles.—*Look out and not get imposed upon.* Every bottle has "Vaughn's Vegetable Lithontriptic Mixture," blown upon the glass the written signature of "G. C. Vaughn" on the directions, and "G. C. Vaughn, Buffalo," *stamped on the cork.* None other are genuine. Prepared by Dr. G. C. Vaughn, and sold at the Principal Office, 207 Main street, Buffalo, at wholesale and retail. No attention given to letters unless post paid—orders from regularly constituted Agents excepted; post paid letters, or verbal communications soliciting advice, promptly attended to gratis.

Offices devoted exclusively to the sale of this article—132, Nassau street, *New York city;* 295 Essex street, Salem, Mass; and by the principal Druggists throughout the United States and Canada, as agents.

Cash for 20,000 Bushels *OF WHEAT,*
At the Empire Mills.

WE are prepared to pay CASH and the HIGHEST PRICE for 20,000 bushels of good merchantable Wheat.

Farmers and Teamsters will save themselves much trouble and expense by driving directly up to the STONE MILLS and unloading; they will always get the highest price, and avoid the annoyance of being pestered by the barkers and whipper snappers from the Stores, who now infest our streets and are such a bore to all who bring wheat to our *market.* We are not *much* given to boasting; but as some of our neighbors are talking of wanting 10,000 bushels of wheat, we would inform wheat raisers that we can take in 20,000; as our Mill, besides being the best, is the biggest, the highest, and the strongest in the country. We have a convenient WAGON-YARD and STABLE, for teams coming to the Mill, and a HOUSE for the Teamsters; are always furnished feed for the horses, and occasionally throw in Supper and Breakfast for their drivers. This is nothing new with us—we have always thought it our duty to do so, and should not now mention it if our neighbors had not set the example.

We keep constantly on hand FLOUR OF THE BEST QUALITY and all kinds of Mill Stuff; and promptly grind every thing in the shape of Custom Work—always excepting White Oak Tan Bark, or the "Stone Mills Post."
